New Features Update - February 2020
V16.20 (Windows) and V16.0.20 (Macintosh)

Items for kurzweil 3000 for Web Browsers (www.kurzweil3000.com)

1.

Restrict students from modifying Document Passwords

This Subscription Option allows Top Level Coordinators to deactivate the 'Set Document Password' tool for student profiles.
Students can
- Enter a document password when required to open a document

Students cannot
- Create new document passwords
- Change existing document passwords

The Subscription Options page will have 2 layout possibilities for this control depending on whether other password options remain visible or have been hidden.

To activate the control click in the box on the left of the description. You will know it is active when a check shows in the box.

Click the "Update subscription options" to save changes.

IMPORTANT NOTE! - As this is a subscription feature not a feature lock the change is activated the next time the students log in. The feature will be grayed out for the students.

2.

Accessibility enhancements for VPAT compliance for Web Browsers (kurzweil3000.com).
Various enhancements have been added over time so they may not be distinctly obvious.

(See the new VPAT for WCAG compliance here:
https://www.kurzweiledu.com/files/Kurzweil3000_for_Web_Browsers_WCAG_VPAT_20200127.pdf)

Notable Changes:
- Allows user to navigate www.kurzweil3000.com using the keyboard
- Increases usability with screen readers

Example Control Keys
- Tab   move left to right to next feature
- Shift + Tab   move right to left to previous feature
- Enter / Return   select highlighted item
- Vertical Arrows   move up and down within a menu
- Space Bar   select documents in UL and some menu items
