

## Getting Started with Kurzweil 3000-firefly for Windows

### What is Kurzweil 3000?

- Kurzweil 3000 is an integrated scan and read (or comprehensive literacy support) software program that provides multisensory access to reading material with OCR and powerful tools for *reading, writing, test-taking* and *learning*.
- Kurzweil 3000 does not *teach* reading and writing, it is a *tool* that provides a digital text-to-speech environment for *implementing* proven reading, writing and learning strategies.
- Kurzweil 3000 can be used to turn any curriculum material into an interactive digital format that is inherently flexible and accessible to a wide variety of students who need support in accessing the general education curriculum. (Struggling students, students on IEPs, students with Physical Disabilities, English Language Learners, students with attentional issues, autism, gifted, and more.)
- Kurzweil 3000 can provide the support needed for *ELL Students* to independently access curriculum material while improving English word recognition. Bilingual dictionaries, a Spanish Picture Dictionary, Voice-recording Capabilities and a *translation tool* provide further customized support for *English Language Learners*.
- Kurzweil 3000 is designed in accordance with the principles of *Universal Design for Learning*, providing multiple means of representation, expression and engagement in an effort to support all students by providing tools for interacting with text that are *necessary for some, beneficial for all*.
- Kurzweil 3000 has keyboard shortcuts for all features and works well with a variety of other technology tools (speech recognition, alternative keyboards, switches, interactive white boards, etc.) to ensure access for all.
- Kurzweil 3000 can be used to *differentiate instruction* for individual students, for small facilitated groups, or as part of whole-class strategy instruction.
- Kurzweil 3000 is as powerful as the imagination of the user and can be used by teachers, students and professionals, to complete a wide variety of tasks.
- Kurzweil 3000 firefly provides four platform options: Windows, Mac, Web app, iPad app.
- Kurzweil 3000 is an integrated literacy solution.
- Kurzweil 3000 firefly supports efforts to meet the rigorous Common Core State Standards by serving as a tool for both students and teachers.

<p><b>How to Get to the User Management pages</b></p>	<p>If you are an administrator, you access the User Management pages just like you did in the previous version: after you log in, hover the cursor over the <b>My Account</b> tab and select <b>Users</b> from the drop-down menu. You will see two buttons: <b>My Team</b>, and <b>Everyone</b>.</p> <p>All users on a subscription are visible on the <b>Everyone</b> page.</p> <p>All users that you select from the <b>Everyone</b> page to be on your team are also listed on your <b>My Team</b> page.</p> <p>The firefly User Management will first open on your <b>My Team</b> page. Notice that the <b>My Team</b> button is yellow, indicating where you are.</p>	
<p><b>Adding Users</b></p>	<p>Click the <b>Add Users</b> tab to add new users. (Use the Students or Teachers tab to include existing users in your My Team.)</p> <p>Type in <b>Last Name, First Name, Password</b> (or leave it blank and the system will create one), Email address, and School/Organization. If the new user is a student, leave the box checked. If the new user is a Teacher, uncheck the box. The new users will be added to the <b>Everyone</b> page</p>	
<p><b>Editing User Fields</b></p>	<p>Editing is easier. All the fields, First Name, Last Name, User Name, password, email address, are editable text fields. When you start editing a field, the line of fields is outlined in yellow and the Save button is activated. Just finish making your edits and click Save. The changes are saved on both the Everyone page and any Team pages the user is on.</p>

<p><b>Deleting Users</b></p>	<p>To remove a user from <b>Your Team</b>, click the <b>Remove button</b> on the right side to remove them from your team.</p> 	
<p><b>Adding Students to Your Team</b></p>	<p>There are three tabs on the <b>Everyone</b> page: <b>Students</b>, <b>Teachers</b>, and <b>Add Users</b>. Use the search fields to search for a user. Notice that the students who are checked are also on the logged in user's <b>Team</b> page.</p> <p>Adding a user to your team is easy. If the list is long, and you know the user name you want to add to your team, you can search for it. Use the search filters at the top of the page in any column.</p> <p>When you have located the user to add to your My Team page, just check the box next to the user you want to add. Note that you can add more than one at a time.</p>	
<p><b>Open your My Team page and you will see the users that you just added.</b></p>	<p>You can remove users from team by unchecking a user in the <b>My Team</b> page, or by clicking the Remove box on the My Team page.</p> <p>(Note that only the Top Level Coordinator can delete a user from firefly.)</p> <p>As you can see, the accessibility link is no longer needed because the pages are already accessible to screen readers.</p>
