

Implementation Services

Professional training, consultation, and support for individual, school and district-wide success.

Kurzweil 3000™
IntelliTools® Classroom Suite
IntelliKeys® USB
Overlay Maker® 3

Make sure you and your students achieve the best results with our products.

OUR SERVICES ADDRESS THESE CRITICAL AREAS

Foundations Training: Our hands-on trainings teach basic level mastery in the use of *Kurzweil 3000*, *IntelliTools Classroom Suite*, or *Overlay Maker 3* and *IntelliKeys*. These courses are more than software “feature” tours. We show you how to use our products to meet specific instructional goals and different student needs.

Class Modeling: Using your district’s curriculum, we produce and present specific lesson plans for the software your students use in the classroom or lab. These sessions can be conducted as a collaborative effort with teachers, and with teachers observing the Class Modeling demonstrations.

Mentoring: Teachers can work one-on-one with our instructors to plan specific grade and subject lessons for differentiated instruction and easy classroom management.

Reading, Writing, and Math Instructional Strategies: You choose the topic(s) that you want to focus on. We then provide the expert, onsite training in your computer lab. Frequent topics for custom workshops include study skills, reading, writing, and math strategies, alternative access, digital file management, and curriculum integration.

Technical & Network Support: An engineer from our company will work with your information technology (IT) department on all matters related to installation and configuration of our products, and compatibility with your network servers and other software products.

HOW TO ACCESS OUR SERVICES

Regional Workshops (Public): We hold one-day workshops led by our expert trainers throughout the year. Frequent workshop themes include:

- Foundation Training in *Kurzweil 3000*, *IntelliTools Classroom Suite*, or *Overlay Maker* and *IntelliKeys*
- Curriculum Integration
- Early Childhood with *IntelliTools Classroom Suite*
- Teaching Literacy through *IntelliTools Classroom Suite*

Please check www.cambiumlearningtechnologies.com for the most up-to-date Regional Workshop Schedule.

Cost: \$195 per person

WebEx Long-Distance Learning (Eight Weeks/ Public or Private): Six 90-minute training sessions are presented online over an eight-week period with homework assignments. The course may be attended by an individual or privately scheduled for your group. Our Long-Distance Learning programs can follow Foundation Training courses or be customized to meet your private group’s needs.

Cost: \$325 per person (public)

\$1,995 per site (private; 20 participants maximum)

WebEx Training (One Day/Private): Six hours of training presented online over two days in three-hour sessions to your school/district staff. This training can follow any of the modules of our Foundation Training courses or can be customized to suit your group’s needs.

Cost: \$1,750 per site (20 participants maximum)

WebEx Training (Half Day/Private): A three-hour training session presented online to your school/district staff. This training can follow any of the modules of our Foundation Training courses or can be customized to suit your group’s needs.

Cost: \$1,000 per site (20 participants maximum)

Onsite Training & Consultation: A full day of hands-on training at your school with the software you'll be using with students. We plan the day's course based on your specific needs.

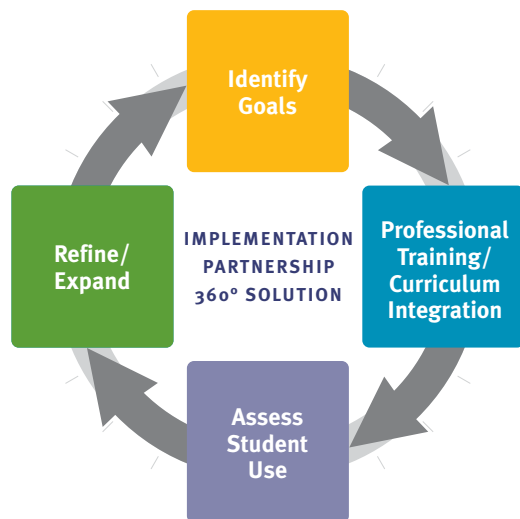

Daily Rate: \$2,500

Train-the-Trainer: This three-day program teaches attendees how to train others in your school or district to use our software in your classrooms. Previous participation in a Foundations Training course is required to attend.

Cost: \$15,000 (three days/10 participants maximum)

IMPLEMENTATION PARTNERSHIPS: OUR 360° SOLUTIONS

Our Implementation Partnerships are a working collaboration between your school and district staff and our implementation team. They are an effective way to pinpoint the grades, classrooms, and district schools that will benefit most from implementing Kurzweil or IntelliTools software.

Premier Partnership

The Premier Partnership lasts a full semester (half the school year) and is our most comprehensive offering. We'll draw up a master implementation plan based on your academic goals, provide project management, onsite professional training, technical support to your IT staff, and ongoing support for curriculum integration by phone and email. Each teacher who participates in your implementation plan will receive individual guidance from one of our experts on lesson plans and using our software in the classroom

Cost: \$52,500 (20 participants maximum)

Intermediate Partnership

The Intermediate Partnership lasts one-third of the school year and is a good choice for smaller implementation plans. Our services will include several days of onsite professional training, lesson plans to meet specific instructional goals, and ongoing support by phone and email.

Cost: \$27,500 (20 participants maximum)

Basic Partnership

The Basic Partnership is a good way to get your school up and running with our software integrated into your classrooms. Our services include a one-day planning session with your school and district staff, onsite professional training, practice lesson plans, and follow-up support by phone and email.

Cost: \$15,500 (20 participants maximum)

A little expert guidance can make all the difference between good or great results.

We invite you to contact our Implementation Services team for a free consultation on how we can best deliver the support you and your teachers need.

Using our learning technologies in your classrooms is one of the most effective ways to improve the performance of your struggling students. The positive results have the potential to be enormous, but for long-term success, experience has shown that professional development and a well thought-out implementation plan can make all the difference.
