

# Kurzweil 3000<sup>®</sup> USB for Windows<sup>®</sup> by Kurzweil Educational Systems<sup>®</sup>

## Grade 3–Adult

### All the Tools for Independent Learning

*Kurzweil 3000*<sup>®</sup> USB for Windows<sup>®</sup> is reading, writing, and study skill support software that enables struggling readers in grades 3 and above to learn from the same content as their peers.

Many learners have difficulty reading for a variety of reasons. Their inability to read fluently at grade level means they are unable to learn from class and curriculum content. For these students, *Kurzweil 3000* USB for Windows can be life changing.

*Kurzweil 3000* USB for Windows provides multisensory access to virtually any text or curriculum, including print, electronic, and web-based material; so students learn from grade appropriate content, develop valuable study skills, and become independent learners.

*Kurzweil 3000* USB for Windows allows teachers and students the freedom to work with content from any publisher across content areas. In addition, *Kurzweil 3000* USB for Windows supports the principles of Universal Design for Learning (UDL), enabling multiple means for students of all abilities to engage with digital text. Moreover, *Kurzweil 3000* USB for Windows is used at all tier levels within Response to Intervention (RtI) programs to prevent students' academic performance from slipping.

### Kurzweil 3000 USB For Windows

Take the power of Kurzweil 3000 with you! With *Kurzweil 3000* USB for Windows, students and teachers can access Kurzweil 3000 on any Windows computer without installing any software.

Delivery of *Kurzweil 3000* USB for Windows on a USB flash drive is not only hassle free, but immediate access to its features and storage of necessary files is of great value to the learner on the go.

### Key benefits of *Kurzweil 3000* USB for Windows

#### For Struggling Students

- Easily use *Kurzweil 3000* USB for Windows at home or on other non-school computers
- Save files and user settings—saving files on a USB flash drive enables students to have ready access to their important files regardless of what computer they are using

#### For Teachers

- Gain immediate access to Kurzweil tools for students and teachers alike—without depending on others to install software
- No installation of software necessary
- Use *Kurzweil 3000* USB for Windows on virtually any Windows computer—even at home
- Bring *Kurzweil 3000* USB for Windows to demonstrate at IEP meetings with parents

#### For IT Directors

- No installation of software necessary—less effort (if any) in supporting software installations
- Provides an easy way to move software from one classroom or lab to another so that a limited number of licenses can be used anywhere in the school without having to install it on a network
- Enable students and teachers to use software at home
