

Kurzweil 3000™ VERSION 12 FOR WINDOWS® USB by Kurzweil Educational Systems®

Grade 3–Adult

Kurzweil 3000 v12 for Windows USB All the Tools for Independent Learning

Kurzweil 3000 is reading, writing, and study skill support software that enables struggling readers in grades 3 and above to learn from the same content as their peers.

Many learners have difficulty reading for a variety of reasons. Their inability to read fluently at grade level means they are unable to learn from class and curriculum content. For these students, Kurzweil 3000 can be life changing.

Kurzweil 3000 provides multi-sensory access to virtually any text or curriculum, including print, electronic, and web-based material; so students learn from grade appropriate content, develop valuable study skills, and become independent learners.

Kurzweil 3000 allows teachers and students the freedom to work with content from any publisher across content areas. In addition, Kurzweil 3000 supports the principles of Universal Design for Learning (UDL), enabling multiple means for students of all abilities to engage with digital text. Moreover, Kurzweil 3000 is used at all tier levels within Response to Intervention (RtI) programs to prevent students' academic performance from slipping.

Kurzweil 3000 USB FOR WINDOWS

Take the power of Kurzweil 3000 with you! With Kurzweil 3000 USB for Windows, students and teachers can access Kurzweil 3000 on any Windows computer without installing any software!

Delivery of Kurzweil 3000 on a USB flash drive is not only hassle free, but immediate access to its features and storage of necessary files are of great value to the learner on the go.

Key benefits of Kurzweil 3000 USB for Windows

For Struggling Students

- Easily use Kurzweil 3000 at home or on other non-school computers.
- Save files and user settings – saving files on the USB flash drive enables students to have ready access to their important files regardless of what computer they are using.

For Teachers

- Gain immediate access to Kurzweil tools for students and teachers alike – without depending on others to install software.
- No installation of software necessary.
- Use Kurzweil 3000 on virtually any Windows computer – even at home.
- Bring Kurzweil 3000 to demonstrate at IEP meetings with parents.

For IT Directors

- No installation of software necessary – less effort (if any) in supporting software installations.
- Provides an easy way to move software from one classroom or lab to another so that a limited number of licenses can be used anywhere in the school without having to install it on a network.
- Enable students and teachers to use software at home.
