## Downloading Kurzweil 3000

It is recommended that you install *Kurzweil 3000 Web License* (K3000) from the latest downloadable version of the software. If you install K3000 from a DVD, the version of K3000 you install may be out of date. However, if the version of K3000 on the DVD is noted as 13.14 or greater, the DVD should be considered adequately current, and downloading the latest version is not necessary.

1. Download K3000 for Windows here: <http://www.kurzweilededu.com/installv13>

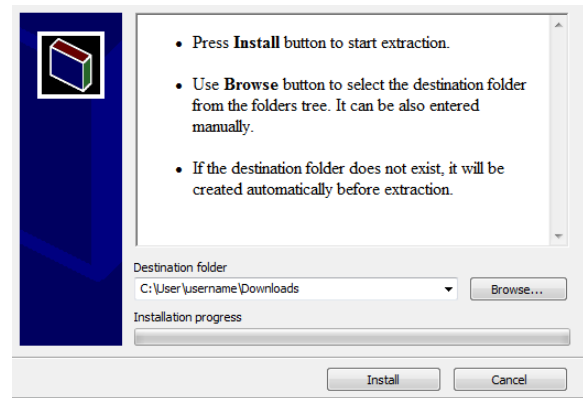

2. Choose to **Save** the file. If you do not specify where to save and download the file to on your computer, it should be saved in your **Downloads**.

4. After the download is complete, choose to **Open** or **Run** the file. You can also double-click the **K3000\_k3\_13xx\_W\_F.exe** file to open it. This will start an extraction process.

5. You may receive an **Open File - Security Warning** window, asking if "...Are you sure you want to run this software?" If you receive this window, click **Run** to bypass it.

6. The extraction window will appear. Select a destination folder and click **Install** button to begin extraction. In the destination folder, a new folder named **InstallTemp** will be created that contains the installer files for K3000.

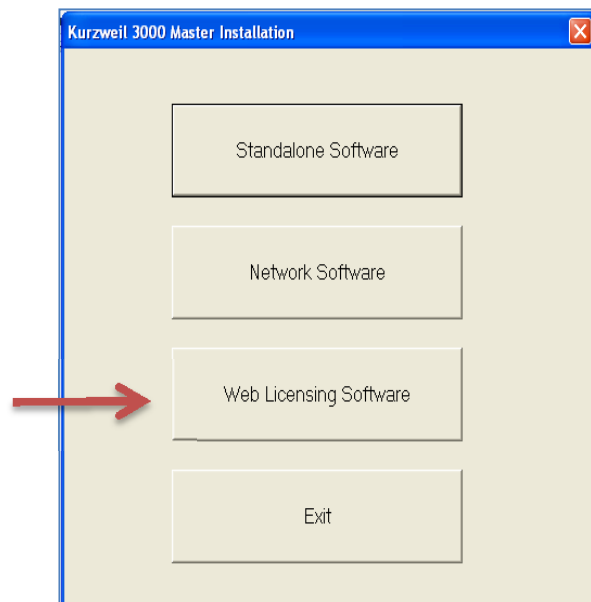

7. After the extraction process completes, it will automatically launch you into the K3000 installation chute (see below). Continue with the installation instructions below.

## Installing Kurzweil 3000

If you followed the downloading instructions, you will see a **Kurzweil 3000 Master Installation** window (i.e., the K3000 installation chute). If you place the DVD into your computer, you should also see this window when your computer auto-runs the DVD. If you're using the installer files (noted above) to install on another computer, locate the **setup.exe** file and run that to start the installation.

1. In the Kurzweil 3000 Master Installation window, click **Web Licensing Software** to install the *Web License* version. Do not choose to install the other versions.

2. Follow the prompts within the installation chute to complete the installation. Choose to install the **Complete** version of the software when prompted. The installation process may take anywhere from 5 to 20 minutes, depending on the speed of your computer.

3. During installation, if a Guest Login Account window appears, choose the option **Skip to continue with the installation**.

4. After the installation process completes, you can use the K3000 software. Double-click the **Kurzweil 3000 shortcut** on your desktop to open K3000.

## Enabling Kurzweil 3000 Components

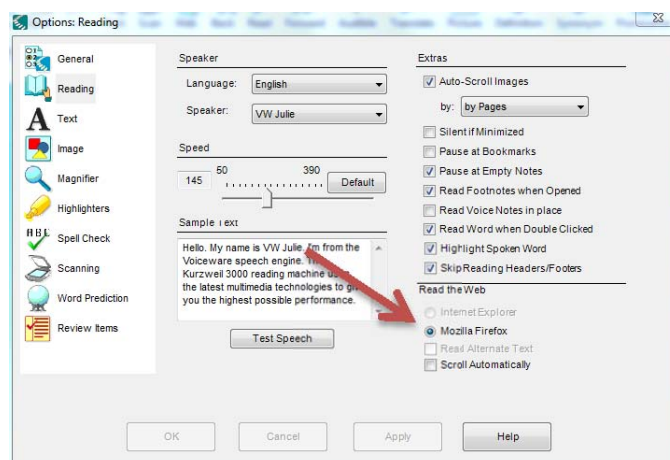

After you install K3000, it is recommended to install the Read the Web add-on for Mozilla Firefox®, and enable the Kurzweil Taskbar with Image Reader.

### Kurzweil 3000 Read the Web

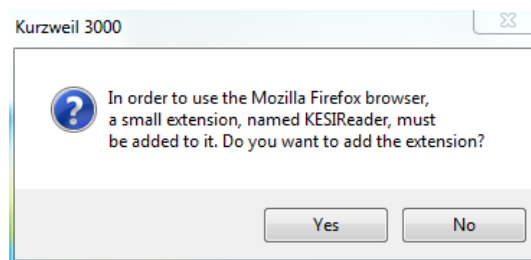

1. If you do not have Mozilla Firefox, you can download it here: <http://www.mozilla.org/en-US/firefox/new/>

2. After Mozilla Firefox is installed and working, you're ready to install the Read the Web add-on. Open K3000 and log in with your K3000-**firefly** username and password.

3. In K3000, click **Tools > Options > Reading**. In the Options: Reading window, choose the **radio button** for Mozilla Firefox.

4. A Kurzweil 3000 window may appear, asking if you want to add the extension. Choose **Yes**. From here, follow the prompts to install the add-on into Firefox.

### Kurzweil Taskbar

1. To enable your Kurzweil Taskbar, right-click in an open space on your Windows Taskbar. In the context menu, select **Toolbars > Kurzweil Taskbar**.

2. To expand the size of the Kurzweil Taskbar, right-click in an open space on your Windows Taskbar. In the context menu, select to uncheck **Lock the taskbar**. Drag the expansion bar to expand the text field of the Kurzweil Taskbar.

3. You can now click on the **Image Reader** button on your Kurzweil Taskbar to drag rectangles around areas of your screen and have K3000 read any text it finds.

## Your Kurzweil 3000-*firefly* username and password

You are ready to log in to and use *Kurzweil 3000 Web License Edition*. When you open the K3000 software on your computer it will prompt for your username and password. Use the username and password your administrator provided. This username and password can be used to log in to the K3000 and *firefly*™.

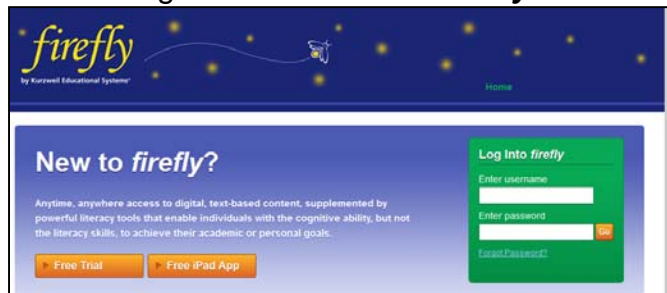

*firefly* is a combination a web-based reading tool, online file storage system, and account management system.

A user account should have been created for you in *firefly*. If you were not provided a username and password, please contact someone at your organization leading the implementation of *Kurzweil 3000-firefly*.

## Accessing *firefly*

You can log in and access the *firefly* website here: [www.fireflybykurzweil.com](http://www.fireflybykurzweil.com)

You can also download the *firefly* iPad® app for free from the Mac App Store:  
<https://itunes.apple.com/us/app/firefly-k3000/id535277727?mt=8>

Educators primarily use *firefly* for its account management system, creating user accounts for others.

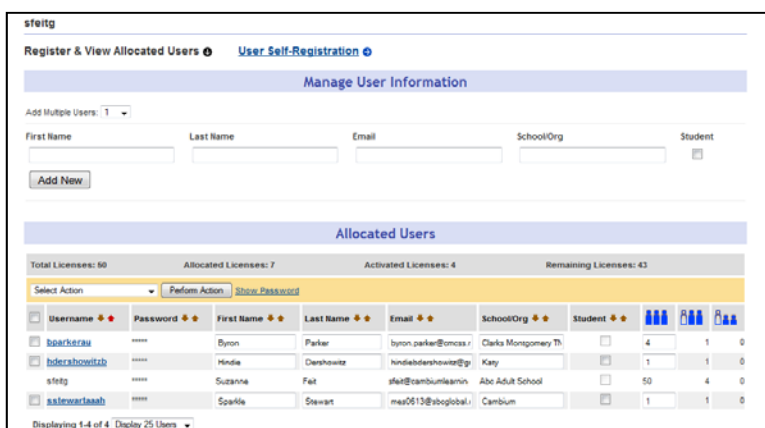

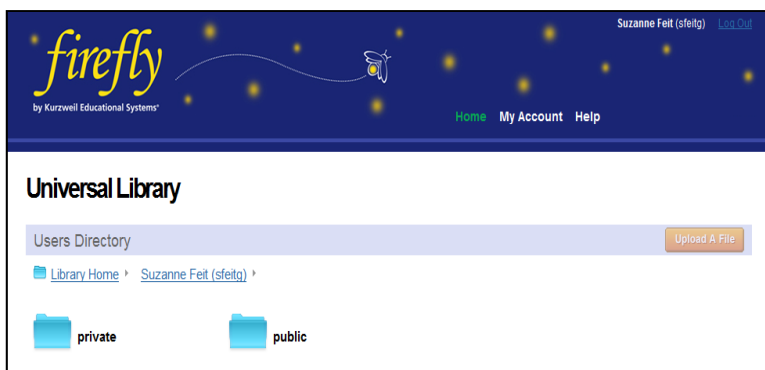

Students primarily use *firefly* for its web-based reading tool, letting them read files uploaded to the online file storage system called the **Universal Library**.

If you are an educator, please watch the *Managing Kurzweil 3000-firefly* videos here:  
<http://www.fireflybykurzweil.com/help.html>

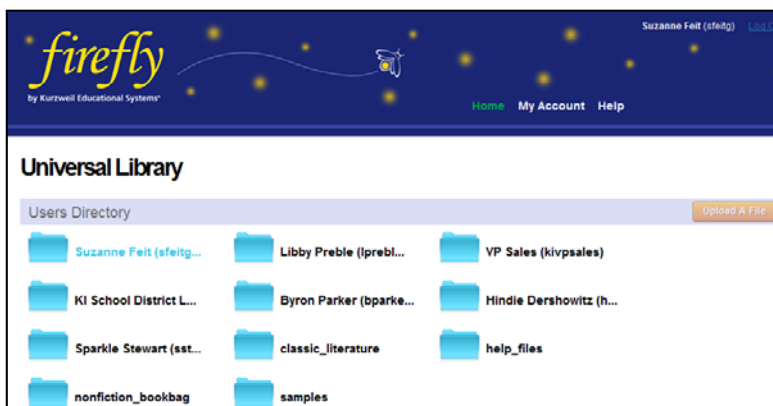

1. Once you log into **firefly**, go to **My Account** to manage your users.

2. There is also a **Help** page with videos and support materials.

3. Select **My Account** and then **Users** to add/edit/remove users, usernames, and passwords.

4. Select the **Universal Library** to find the **classic\_literature** folder.

5. The **classic\_literature** folder is an online library of approximately 1,800 digital texts—everything from Jane Austen to Shakespeare can be read through **firefly** or opened with K3000.
