Kurzweil 3000 for Macintosh Version 5.0.6

April 5, 2012

WHAT'S NEW?

5.0.6 ENHANCEMENTS, CHANGES AND RESOLVED ISSUES

In All Editions:

Mac OS X 10.7 Lion support.

Fixed issue with Previous Sentence button going to next sentence when the button is added to the toolbar by using the Customize Toolbar function.

Fixed issue with inverted text and background colors in text-based pages.

In Web License Edition:

Resolved issue with documents not opening in Universal Library. Now when a font in the Preference file is not available on a local machine, Kurzweil 3000 will use the default font; and then reset the Preference font.

Important Change: The Kurzweil 3000 Network Edition is no longer available.

The remainder of this document is organized into the following sections:

General Notes

System Requirements

Installation Notes for Standalone and Web License Editions

Upgrading from Previous Kurzweil 3000 Versions

How to Contact Kurzweil Educational Systems

GENERAL NOTES

- Product editions are also downloadable from: www.kurzweiledu.com/k3mac
- The Kurzweil 3000 for Macintosh Trial is now on separate media, and can no longer be activated to full product.
- All documentation is available in PDF format in the Documentation folder on the product DVD, as well as at <http://kurzweiledu.com> under the Download Center.

SYSTEM REQUIREMENTS

Standalone and Web License Client Requirements:

Minimum G3 processor, running Mac OS X 10.4 (Tiger) to 10.6 (Snow Leopard).

Minimum 128 MB RAM (512MB RAM for Cepstral voices).

Minimum 300 MB of hard disk space (500 MB for Cepstral voices).

DVD drive, keyboard, mouse, speakers, microphone, Internet connection for Read the Web functionality.

TWAIN- or Image Capture-compatible scanner (Color Professional and Black-and-White Professional only).

Internet connection for Web License Edition.

INSTALLATION NOTES – Standalone Edition

Have your serial number(s) ready. You can find the serial number on the product box.

Remove the currently installed version of Kurzweil 3000 by moving it to the Trash before installing the new version.

Do one of the following:

Place the Kurzweil 3000 DVD into the DVD drive and double-click the Standalone edition icon.

Or go to www.kurzweiledu.com/k3mac to download the installation file.

Drag the **Kurzweil 3000** application file to the **Applications** folder.

If Kurzweil 3000 will be accessed by a number of users, drag the **Sample Files** folder to the **Shared** folder, located in the **Users** folder. This will make the sample documents easily accessible to all users.

INSTALLATION NOTES – Web License Edition

Before You Install:

Be sure to have an Internet connection.

You will also need the Username and Password from your site administrator.

Installing Web License Client:

Do one of the following:

Place the Kurzweil 3000 DVD into the DVD drive and double-click the Standalone edition icon.

Or go to www.kurzweiledu.com/k3mac to download the installation file.

Drag the **Kurzweil 3000** application file to the **Applications** folder.

Web License Log In:

To Log in: In the Welcome window, enter your Username and Password.

UPGRADING FROM PREVIOUS KURZWEIL 3000 VERSIONS

(You may optionally drag the Kurzweil 3000 Version 5 application to another location or move your previous copy of Kurzweil 3000 to an archival location in order to use both versions; they do not interfere with each other.)

Drag the Kurzweil 3000 Version 5 application directly into the same folder containing your previous copy of Kurzweil 3000. You may optionally drag desired contents of the **Extras** folder to any location on your Macintosh. Installing the optional Read the Web functionality and

Cepstral voices requires more steps; please refer to your installation guide for these features.
You will need to activate Version 5 using the new serial number.

INFORMATION FROM PREVIOUS RELEASES

5.0.5 ENHANCEMENTS

In Web License Edition, enhanced Universal Library support for OSX 10.4 Tiger, including the ability to:

- Cut/Copy/Paste

- Save read-only documents when opened

- Navigate sub-directories

5.0.4 ENHANCEMENTS

In All Editions:

Kurzweil 3000 product Readmes now send users to the Software Updates page on our website: <http://www.kurzweiledu.com/software-updates.html>.

In Web License Edition:

The Universal Library features now include Copy/Cut/Paste.

CHANGES AND RESOLVED ISSUES

In Web License Edition:

When saving PDF files to the Universal Library, the filename text box is empty. This has been fixed to display "filename.kes."

Removed references to product types from various places in the program, as Version 5 no longer offers the Black and White or Learnstation product.

5.0.3 INFORMATION

All Editions:

- Copyright date changes.

- Read the Web screen now allows you to scroll as the program continues to read.

- Resolved issue with image documents displaying inverted colors.

- Updated KESIReader.xpi.

In Web License Edition:

- Addition to Universal Library of New Folder creation and Rename of file or folder.

- My Accounts link from Kurzweil 3000 menu now provides firefly users with access to the firefly User Management system. A new button is also available in View > Customize Toolbar for setting up easy access to My Accounts from a toolbar.

- Resolved issue with Save button activated when user did not have write permissions for the Universal Library file.

- Fixed error opening file saved to the Universal Library.

- Revised product About page for various date and product changes.

Fixed issue with using File-Open to open a Universal Library file, which resulted in the display of the tmp folder.

Resolved issue with student's Universal Library view not showing teacher's public folder.

5.0.2 INFORMATION

In Web License Edition:

Save to Universal Library, and Delete from the Universal Library.

Addition of Forgot Password process.

Addition of school selection in the user management Accounts system Profile page.

Addition of Receipt links in the user management Order History page

5.0.1 INFORMATION

Addition of Universal Library to Web License Edition.

Addition of Alex system voice.

Fixed issue with crash when opening PDF files.

Fixed issue with Registration screen not presenting purchase year beyond 2010.

Kurzweil 3000 Administrator program appearing as a folder has been fixed to appear as an application.

Version 5.0 offers customers:

Simplified login.

One product license type -- Color Professional, replete with scanning, Virtual Printer, Zone Editing, advanced OCR editing, and more.

Single DVD containing the majority of the product Editions: Standalone, and Web License, for both Windows and Macintosh.

And most exciting of all, for the Web License Edition includes new database and license management and authentication system that simplify the user setup and license management processes.
