## 2011–2012 CATALOG

Assistive technology products that serve at-risk and special student populations

PreK–Adult

# About Kurzweil Educational Systems and IntelliTools

Dear Colleague:

Welcome to our 2011–2012 catalog, which features innovative programs from Kurzweil Educational Systems® and IntelliTools®, members of Cambium Learning® Technologies.

The educational landscape is changing. Fast. Increasingly the challenge in front of schools and districts is how to spend less money and still provide a better solution that delivers universal student success. We believe that this solution begins with people: teachers and other educational leaders. We further believe that technology has a unique ability to expand instructional capacity and is therefore a critical part of the solution during these challenging times. This is proving to be true, as schools use technology to embrace Universal Design for Learning (UDL), find ways to make learning increasingly student-centric and student-directed, and enable teachers to truly individualize instruction. Technology by itself is not the answer, but technology when strategically integrated into the learning process has the potential to revolutionize education and deliver universal student success.

It is our goal to provide technology products and services that represent the most current thinking in terms of product design and pedagogy, and that will support your teams in providing an educational solution that enables all students to achieve.

Throughout this catalog you will see evidence of our continual effort to provide more effective solutions to the students and teachers who we serve. Perhaps the most exciting part in this year's catalog is our new product, *firefly*. The result of over a year of research and development, we are delighted to be offering our first fully web-based product that over time will provide more content, better tools, and greater access to both our traditional Kurzweil customers and the larger group of individuals who can benefit from these resources.

We are guided by the belief that our solutions change lives. We look forward to working with you this year.

Alex Saltonstall  
General Manager  
Kurzweil Educational Systems and IntelliTools

### Universal Design for Learning

With a history of developing resources for students who struggle with physical and cognitive challenges, we integrate the principles of Universal Design for Learning (UDL) into our entire product line. Our goal is to provide access for all students in order to give them every opportunity for success.

The three principles of UDL are:

- Multiple means of representation
- Multiple means of expression
- Multiple means of engagement

### Response to Intervention

Whether as a new way to manage the education of struggling students or simply as a component of good teaching, Cambium Learning Technologies offers intervention products that align with the Response to Intervention (RtI) framework. This makes it easy to monitor student progress and adapt instruction accordingly.

### Research and Efficacy

All of our product development efforts are guided by the latest pedagogical research and, in many cases, the research experts themselves. We continuously pursue opportunities to assess and demonstrate the effectiveness of our products in real classroom situations.

Research reports validating the effectiveness of CLT programs can be found online at:

## More than 30 years of serving students of all ages and learning disabilities under IDEA, Title I, and other programs that support special education

### Products that align with school funding programs

| Programs   | <i>Classroom Suite</i>   | <i>Kurzweil 3000</i>  |
|--|--|---|
| IDEA (Part B)                                    | Includes assistive technology to provide on-level and intervention instruction, practice, and assessment.  | Includes assistive technology to provide access to curriculum and a platform for reading, writing, and study skill support.   |
| TITLE I (College and Career Ready)               | Allows educators to use pre-existing or create new data-driven instructional activities and supports school improvement initiatives.   | Allows students to develop fluency, vocabulary, comprehension, study, and writing skills via a data-driven instructional platform; supports school improvement initiatives.   |
| Race to the Top                                  | Provides students with explicit instruction, constructive practice, and embedded assessments to allow teachers to gauge progress and individualize instruction for their students. Developed using the principles of Universal Design for Learning (UDL), a framework for designing curricula that enables all individuals to learn.   | Assistive technology allows struggling students to read more advanced grade-level material and improve word recognition and decoding. As these students become more active readers, they develop the skills that support independent reading without the assistive technology. The program also reinforces the core reading skills emphasized by research— decoding, fluency, comprehension, and writing.   |
| School Turnaround Grants (formerly known as SIG) | Activities can be easily individualized, or adapted to the core curriculum, using a simple “wizard” interface. Lessons incorporate a system of “model, practice, apply” to ensure that students understand each educational objective. Students receive practice with strategic feedback and are immediately assessed to determine whether to move on to another activity or to receive additional practice. Teachers can track progress.  | Generates usage logs to track student statistics, including reading rate, dictionary use, length of reading sessions, and more. <i>Kurzweil 3000</i> ® is aligned to state academic standards and makes the regular classroom curriculum accessible to struggling students and students with disabilities which support students in the least restrictive environment.  |
| 21st Century/<br>Striving Readers                | By using a modeling approach of “I do,” “we do,” and “you do,” <i>Classroom Suite</i> standards-aligned activities directly and explicitly instruct students in each foundational step toward language literacy. Sound sorting and sound combinations develop and heighten phonemic awareness and provide practice in phonics and decoding. Auditory and instruction-based feedback enforces proper usage. Constructive and repeated practice at the students’ individual pace promotes and accelerates fluency. | Improving comprehension requires a number of strategies: activating prior knowledge, using graphic organizers to focus on the main idea concepts, generating and answering questions, and summarizing to determine what is important. These strategies aid teachers with direct and explicit instruction in comprehension as well as the systematic and direct instruction of proven study skills strategies. Because of <i>Kurzweil 3000</i> ’s ease of use, instruction can be tailored for individuals’ specific requirements. |
| Title II D (EETT)                                | Combines two educational paradigms: systematic, explicit instruction and a flexible creativity tool. Teachers have control over specific learning objectives and it allows for differentiated instruction for individuals or groups. Activities and lessons are based on carefully crafted, scientifically designed teaching strategies.   | Takes advantage of current and portable technologies to broaden access and increase time for literacy beyond classroom-based and one-on-one instruction. Networked stations throughout a classroom or school enable teachers and administrators to distribute curricular material, while providing struggling students with access to content, assignments, tools, and supports in classes, resource rooms, or information centers.   |
| English Language Learning                        | For English language learners and parents and family members who speak other languages, <i>Classroom Suite</i> provides the foundation needed to decode language—from phonemes to phonics. A fluency template is available and can be used for modeling pronunciation of words.  | The program includes a picture dictionary with more than 1,300 graphics in English and Spanish with human voice pronunciations from the <i>American Heritage</i> ® <i>Dictionary</i> . It also includes built-in bilingual dictionary support (French, German, Italian, and Spanish), language translations “on the fly” with <i>Google Translate</i> ™, and a multilanguage recognition option. <i>NeoSpeech Violeta</i> is one of the speech options available for Spanish text to speech.                                      |

Correlations to these funding sources can be found online.

# CLASSROOM SUITE

trial CD-ROM, visit:  
[www.cambiumtech.com](http://www.cambiumtech.com)

## Systematic, explicit instruction in a flexible environment

*Classroom Suite* combines two educational paradigms—systematic, explicit instruction and a flexible creativity tool—to help students in grades PreK–5 achieve mastery in reading, writing, and mathematics. Teachers have control over specific learning objectives, allowing differentiated instruction for individuals or groups.

Activities and lessons are based on carefully crafted, scientifically designed teaching strategies. IntelliTools® built *Classroom Suite* on years of research conducted by leading research teams.

*Classroom Suite* provides:

- Direct instruction for all students
- More than 50 curriculum templates aligned to state and national standards
- Simple wizards for modifying templates in minutes; no authoring required
- Formative assessment and data-gathering tools for easy student reporting

*Classroom Suite* is proven effective with learners who are struggling to become proficient, including:

- Students with individualized education programs (IEPs)
- English language learners (ELLs)
- Students of low socioeconomic status with lagging test scores

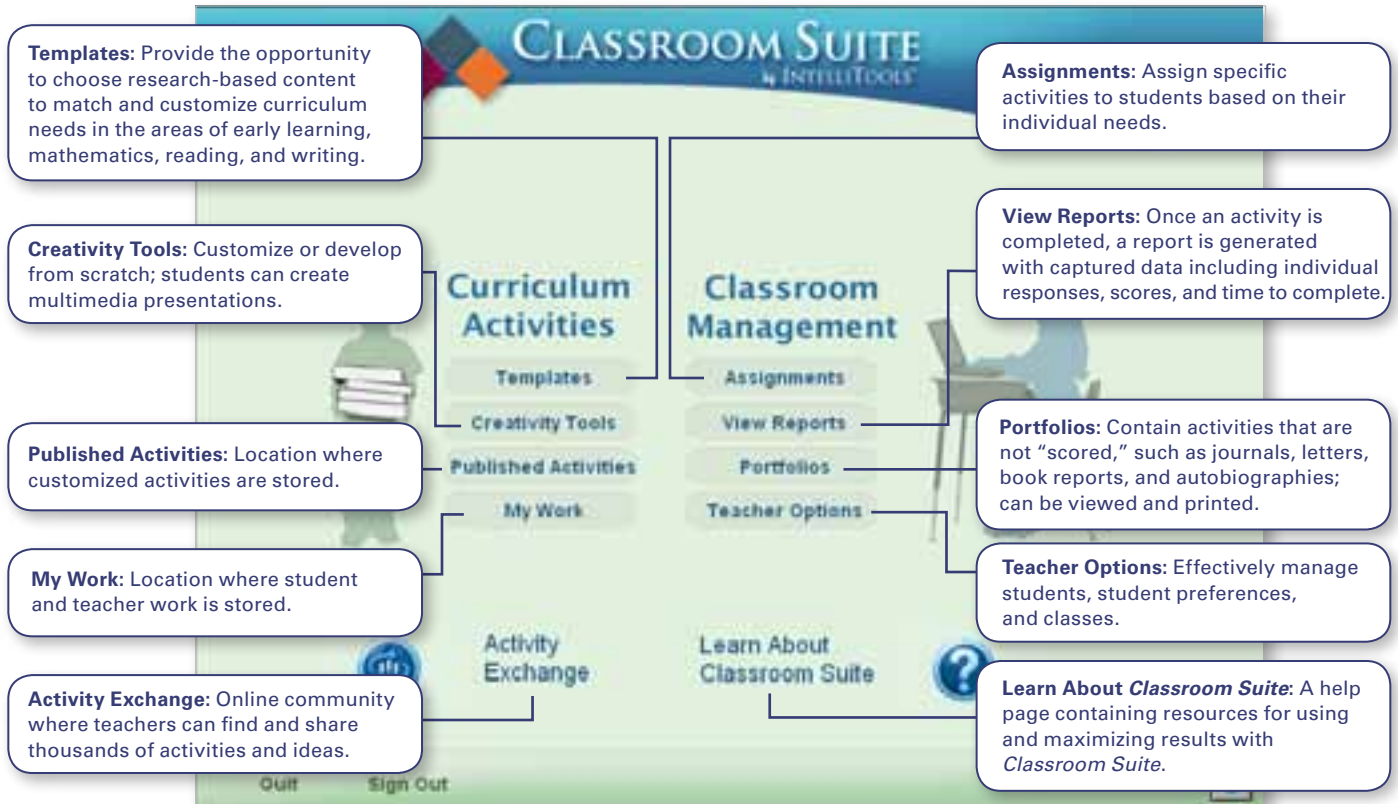

### Custom Units of Study to Match Your Curriculum

*Classroom Suite* provides the tools to develop targeted units of study. This can be easily accomplished in your district curriculum or technology office by an enthusiastic teacher or through our Cambium Learning Technologies Implementation Services team. See page 36.

**Additional content packages are available**  
See page 11.

**Model, Practice, Apply**

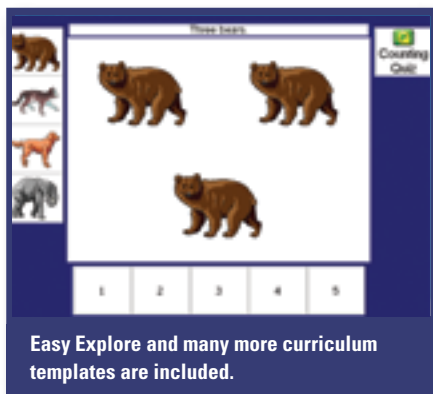

Classroom Suite performs like an excellent instructor. Great teachers give direction (Model), support guided practice with their class (Practice), and then turn the reins over to their students (Apply). With Classroom Suite, students are led through three stages:

- Show Me**—The computer plays a video-like sequence to orient the student to the lesson.
- Practice**—The student practices and learns as the software provides strategic and corrective feedback.
- Challenge**—The educational objective is identical to “Practice,” but the corrective feedback is withdrawn, and data is collected for reports.

If the student displays mastery in “Challenge,” he/she moves on to the next activity. If the student fails to master the assignment, he/she receives more practice with more strategic feedback.

## Early learning activities for emergent learners

These popular templates teach basic skills and have been updated to make them easier than ever to customize. Teachers can create simple question-and-answer activities with their own curriculum content.

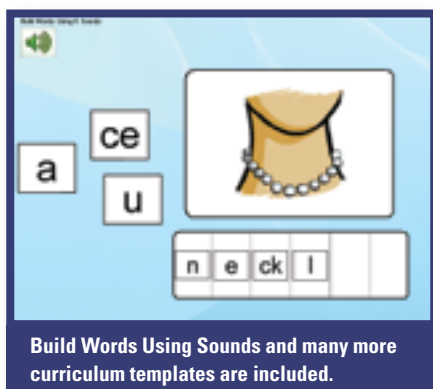

### Templates include:

- **Easy Explore:** Students explore attributes of size, number, color, and movements
- **Errorless Writing:** Teachers create and customize writing activities based on curriculum or students' interests
- **Puzzles:** Teachers quickly create puzzles with their own content using graphics from the *Classroom Suite* library
- **Left Right:** Teachers show students how to use two switches to interact with an activity (see page 18 for more information on *IntelliSwitch™*)

## Reading activities in all five areas

*Classroom Suite* is anchored in research by the National Reading Panel (NRP), the Florida Center for Reading Research (FCRR), and research conducted with Karen Erickson, Ph.D., of the Center for Literacy and Disability Studies.

The NRP found that there are five key areas of reading instruction: phonemic awareness, phonics, text fluency, vocabulary, and reading comprehension. *Classroom Suite* addresses all of these areas and is an ideal tool for creating reading interventions based on *DIBELS® (Dynamic Indicators of Basic Early Literacy Skills)* screening data.

### Templates include:

- **Build Words Using Sounds:** Teachers construct activities in which students build words as they practice letter-sound correspondence
- **Match Sounds:** Teachers create activities in which students match words based on their beginning, middle, ending, or rime
- **Build Fluency:** Teachers create activities in which students read and record single-word, phrase, or sentence passages
- **Build Vocabulary:** Teachers create activities that build students' vocabulary by using definitions, synonyms, representative graphics, and sample sentences
- **Build Comprehension:** Teachers create activities that build students' comprehension in a variety of engaging ways

## Reading Skills

| Template           |                             | Skill Objective |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|--------------------|-----------------------------|-----------------|------------------|------------------|----------------|---------------------|-----------------------------|-----------------|----------------------|------------------------|-------------------|----------------------------|
|                    |                             | Match Phonemes  | Isolate Phonemes | Segment Phonemes | Blend Phonemes | Manipulate Phonemes | Letter Sound Correspondence | Onset and Rimes | High Frequency Words | Major and Minor Sounds | Syllable Patterns | Compound Words and Affixes |
| Phonemic Awareness | Sort Sounds                 |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|                    | Match Sounds                |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|                    | Find the Sound              |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|                    | Count Sounds                |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|                    | Blend Sounds and Match      |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|                    | Change the Sound and Match  |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|                    | Remove the Sound and Match  |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
| Phonics            | Match Letters               |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|                    | Match Letter Sounds         |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|                    | Blend Onsets and Rimes      |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|                    | Build Words Using Sounds    |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|                    | Read High Frequency Words   |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|                    | Sort Major and Minor Sounds |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|                    | Build Vowel-R Words         |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|                    | Sort Syllables              |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |
|                    | Match Compound Words        |                 |                  |                  |                |                     |                             |                 |                      |                        |                   |                            |

## Writing activities to engage and empower

The scaffolded writing instruction integrated into *Classroom Suite* helps students master the stages of the writing process (brainstorming, organizing, drafting, editing, and publishing) and provides opportunities for learning to write in various genres.

Students are asked to write to express, discover, record, develop, reflect on ideas, and solve problems. They learn to categorize ideas and organize them into paragraphs, eventually blending paragraphs within larger units of text.

### Templates include:

- **Reports (Book, Animal, and Science):** Students structure their thoughts about a subject and better understand their topic by using graphic organizers and a link to the vocabulary notebook
- **Autobiographies:** Students write autobiographical narratives in response to a series of structured prompts
- **Journals:** Students develop more sophisticated writing skills, including language comprehension, sentence structure, and writing independence
- **Letters:** Students build confidence and communication skills through social, thank you, and business letters

## Writing Skills

| Template                   | Grade Level |              |              |              |              | Skill Objective |               |                  |               |                         |              |

**Scaffolding Writing Skills** - This flow chart gives examples of how you might scaffold the writing process using the templates that ship with *Classroom Suite*. The templates move from those that provide the highest level of support for the student to those that require more independent writing skills.

| Letter-Sound Correspondance | Sentence Fluency  | Brainstorming  | Working on Conventions | Editing and Publishing  |
|-----------------------------|-------------------|----------------|------------------------|-------------------------|
| Phonics                     | Build Sentences   | StoryMaker     | Journal                | Letters                 |
| Match Letters               | Errorless Writing | Book Report    | Letters                | Reports                 |
| Match Letter Sounds         | StoryMaker        | Science Report | Autobiographies        | Multimedia Presentation |
| Blend Onset and Rime        | Journals          | Animal Report  | Reports                | Make a Book             |
| Build Words Using Sounds    |                   |                |                        |                         |

TOWARD INDEPENDENCE

## Math activities to build core skills and master concepts

The math interactions in *Classroom Suite* are based on research in math models and automaticity. Manipulative models and computational sequences align with most math curricula and reflect the latest research from the National Science Foundation and the National Council of Teachers of Mathematics. Skills addressed include:

- Early math concepts
- Addition and subtraction
- Multiplication and division
- Place value
- Fractions
- Decimals

### Templates include:

- **Patterns:** Teachers create activities in which students use manipulatives to build an understanding of patterns
- **Addition and Subtraction with Base-Ten Blocks:** Students use base-ten blocks to understand conceptually the procedure of regrouping to solve multidigit addition and subtraction problems
- **Multiplication Under 150:** Students learn fundamental multiplication concepts and solve basic multiplication problems with arrays, ten-frames, and number lines
- **Equivalent Fractions:** Students use manipulatives to learn about equivalent fractions and the concept of simplest terms

## Mathematics

Skills covered by *Classroom Suite* core package. Additional skills templates can be added through purchase of *Classroom Suite MathTutor* found on page 11.

**Scaffolding Reading Skills** - This chart gives examples of how you might scaffold the math instructional process using templates that ship with *Classroom Suite*.

| Whole Class Instruction on All Topics | Assess Automaticity (+, -, x, ÷) | Teach the Manipulatives | Practice and Assessment Using Manipulatives |
|---------------------------------------|----------------------------------|-------------------------|---|
| Math Tools                            | Assessments                      | Learning Models         | All Templates                               |

TOWARD INDEPENDENCE

## Tools to track student performance with ease and accuracy

Classroom Suite provides tools and features to help place students, track their progress, and report on status.

### Assessment and automaticity templates

These templates measure high-stakes mathematics and reading skills, enabling educators to diagnose areas of weakness and pinpoint where intervention may be required. These tools help teachers:

- Determine baseline skill levels
- Adjust assessment speed and content
- Make all materials accessible for students with disabilities

### Custom unit building to sequence lessons

The Unit Builder allows educators to link activities into a sequence for the purpose of building skills, managing student time, keeping unit lessons together, or creating a series of scaffolded activities. Teachers can:

- Organize lessons around a theme or sequence of skills
- Track student progress with a class snapshot or detailed reports

| Grade: Grade 1 (jg01) |   | Term: 14 1B00          |                       |
|-----------------------|---|------------------------|-----------------------|
| Access Initial (jg01) |   | Report on (jg01)       |                       |
| Score                 | Rate  | Correct or Not Correct | Score                 |
| Question:             | Challenge #1: Double  |                        |                       |
| Response 1:           | 10+ 10=20 Double, using strategy double of 10                                       |                        | 04/18/14, 10:44:33 AM |
| Question:             | Challenge #1: Double #1: What word has the same sound as, flower, frog, hoop, jump? |                        |                       |
| Correct answer(s):    | none  |                        |                       |
| Response 1:           | none is 1 2P words  |                        | 04/18/14, 10:44:33 AM |
| Question:             | Challenge #1: Double #2: What word has the same sound as, flower, frog, hoop, jump? |                        |                       |
| Correct answer(s):    | none  |                        |                       |
| Response 1:           | dog is 1 1P words   |                        | 04/18/14, 10:44:33 AM |

### Quick, user-friendly reporting for assignments and units

Benefits of reporting:

- Report details include percent score, number correct, time spent per question and overall, individual questions, and actual student responses
- Data gathering is ideal for teachers and curriculum coaches
- Data is easily imported into the Student Information System (SIS)

| Question | 1                     | 2 | 3 | 4 | 5 |
|----------|-----------------------|---|---|---|---|
| 1        | Answer Initial (jg01) |   |   |   |   |
| 2        | Use Initial (jg01)    |   |   |   |   |
| 3        | Match Initial (jg01)  |   |   |   |   |
| 4        | Answer Initial (jg01) |   |   |   |   |
| 5        | Use Initial (jg01)    |   |   |   |   |

### Classroom Suite Alternative Access Kit

The *Alternative Access Kit* provides the tools educators need to quickly get up and running with overlays and switch access to Classroom Suite Version. The kit includes:

- **Overlays:** 12 preprinted overlays
- **Overlay Directory:** An easy-to-follow overlay directory lists each overlay, the template it is attached to, and a graphic representation
- **Alternative Access QuickStart:** Provides detailed information on using overlays, *IntelliKeys*®, switches, and *IntelliSwitch*® with Classroom Suite

Examples of *Alternative Access Kit* overlays for Classroom Suite

## Targeted instructional activities to teach addition, subtraction, and money concepts

### Grades 2–3

*Classroom Suite MathTutor: Addition, Subtraction, and Learning Money* is a powerful add-on product to *Classroom Suite* (Version 4.2 or higher) and features:

- Nearly 60 activities for approximately 12 hours of sequenced instruction
- Targeted instruction in critical math skills for grades 2–3
- Six short units (approximately two weeks each) for flexible use
- Content that supplements most core math curricula and aligns with national math standards
- Multiple concept models, including coins, base-ten blocks, number line, hundreds grid, and hundreds chart

These *Classroom Suite* activities provide students with explicit instruction, constructive practice, and embedded assessments. Teachers can utilize the report data to monitor progress and identify individual student needs.

## Reading activities to build phonemic awareness, phonics, and sight word vocabulary development

### Grades K–2

*Classroom Suite ReadingTutor* covers reading concepts such as letter-name identification; all major letter sounds in the initial, medial, and final positions; and rime sounds through phonemic awareness and phonics activities. The lessons also cover all sight words on the Dolch pre-primer grade 2 list, as well as the 100 highest frequency words. The product focuses on phonemic awareness, phonics, and vocabulary through sight words as the basis of strong reading skills.

*Classroom Suite ReadingTutor* includes:

- 398 activities that provide as much as 26 hours of sequenced instruction
- Targeted instruction covering basic reading concepts for grades K–2
- 30 units covering grade-level content organized and sequenced by concept
- Activities involving matching, blending, and manipulating phonemes, as well as letter sound correspondence

These *Classroom Suite* activities provide students with explicit instruction, constructive practice, and embedded assessments. Teachers can utilize the report data to monitor progress and identify individual student needs.

CLASSROOM SUITE  
**Primary Skills Builders**  
by INTELLITOOLS™

News-2-You customers  
can find additional activities  
online at [www.n2y.com](http://www.n2y.com)

**Assessment activities for struggling students  
and those with mild to profound disabilities**

**Grades PreK–4**

*Classroom Suite Primary Skills Builders* templates allow educators to create curriculum-aligned learning and accessible assessment activities. These templates are appropriate for creating whole class or small group instructional activities and can easily be assigned to students to reinforce learning concepts and collect data. Activities generated with these templates work great with interactive white boards! They also feature built-in supports for early literacy, yet are appropriate for any age group. This add-on product to *Classroom Suite* (Version 4.2 or higher) includes 12 customizable templates to create:

- Accessible books that are easy to author with sounds and animation
- Math word problems with supported cuing and calculator for beginning addition and subtraction
- Comprehension tests that support students at a variety of cognitive levels (students select picture or text)
- Multiple choice templates with three or four choices and fill-in-the-blank assessments with text, sound, and image support from customizable word banks
- Sequencing assessments using letters, numbers, images, words, phrases, and sentences
- Spelling tests with auditory prompting and visual cuing

Each activity created collects student performance data and records cuing or prompting required by the learner—all in a report format that allows for written anecdotal observations.

**These are the same templates News-2-You uses to create its *Classroom Suite* activities for the Unique Learning System.**

# IntelliKeys®

For more information visit:  
[www.intellitools.com](http://www.intellitools.com)

## Computer access for all struggling learners

*IntelliKeys USB*® plugs into a computer's USB port to provide access for anyone who has difficulty using a standard keyboard, including those with physical, visual, or cognitive disabilities. In combination with a wide variety of overlays, it is the most flexible alternative keyboard available.

*IntelliKeys USB* provides individualized support for:

- Young students
- Struggling learners
- English language learners

*IntelliKeys USB* is a keyboard with a changing face. Teachers simply slide overlays onto its programmable surface to create keyboards for different students and curriculum areas.

The universal design of the overlays provides large, well-spaced “keys” in high-contrast colors to help students locate letters, numbers, words, and directional arrows.

Students can use a variety of durable overlays with *IntelliKeys USB* to work with writing, math, and drawing programs as well as e-mail and the Internet. Included with *IntelliKeys USB* are:

- Alphabet overlay
- Basic writing overlay
- QWERTY overlay
- Web overlay
- Math access overlay
- Mouse access overlay
- Set-up overlay

### Key Benefits

*IntelliKeys USB*'s sophisticated programming allows teachers to customize each keyboard by selecting:

- How quickly each key responds to touch
- How quickly each key repeats (fast to slow)
- Whether the repeat feature is on or off
- How quickly the mouse moves
- Whether to latch the shift and control keys for one-finger typists
- Whether the student must lift off before another key press is recognized
- Smart typing, such as punctuation spacing and “q” automatically followed by “u”

### Unprecedented access to learning

For some students, the computer is more than just a helpful tool; it is their access to learning to read, write, and do math. For students with physical disabilities, it becomes their paper and pencil and the method they use to communicate their mastery of concepts. For students with cognitive disabilities, it becomes their adapted learning environment, presenting information in a format that maximizes learning.

Research in Universal Design for Learning (UDL) proves that students benefit from multiple means of engagement, representation, and expression. The combination of *Classroom Suite* and *IntelliKeys*® or *IntelliSwitch*™ (page 18) provides unprecedented access to learning for students with special needs.

UDL

*The IntelliKeys USB keyboard, coupled with programs like Classroom Suite, brings learning to life and gives students with special needs the ability to manipulate their learning environment in ways that are not usually possible. ... [It] opens doors for students with special needs to achieve to their highest potential.*

— Brian Friedlander, Ph.D.  
Assistive Tek, LLC  
Port Murray, N.J.

### Customizable switch interface

*IntelliKeys USB* also works with switch-accessible software and aids the transition from switch-scanning to direct select access. It is compatible with cable and wireless *AbleNet* switches.

*Overlay Maker® 3* can be used to program words or phrases for switches connected to *IntelliKeys USB*.

or a complimentary  
trial CD-ROM, visit:  
[www.cambiumtech.com](http://www.cambiumtech.com)

## A tool to open the curriculum to all students

*Overlay Maker*® 3 transforms the *IntelliKeys*® keyboard into a curriculum access device, opening up a world that was previously closed to many students with special physical or cognitive needs. *Overlay Maker* allows users to create custom overlays in just minutes for individualized needs and greatly expands the capabilities of the basic keyboard.

The following simple yet flexible features empower educators to accommodate various range-of-motion and cognitive needs:

- Reduce input choices
- Group keys by color or location
- Add graphics to support comprehension
- Increase visual contrast by adjusting key size, shape, and color
- View keys as pictures, text, or both
- Motivate students to progress from switch scanning with switches to direct-select choices
- Program the keys, mouse keys, and switch-scanning content

### **Overlay Maker supports Classroom Suite**

The similar look and feel of the two products and a simple Make Overlay Wizard allow users to quickly make overlays to access curriculum activities. *Overlay Maker* also includes several *Classroom Suite* activities and tutorials featuring writing and math curriculum activities with overlays.

### **Off-computer activity templates**

Based on work by Jo Meyer of SoftTouch, these off-computer activities help students learn important concepts. Templates include game boards, Lotto cards, and dominoes.

## Three Easy Steps

**1. Create and arrange keys in *Overlay Maker 3*.**

**2. Print the overlay on legal size paper.**

**3. Send the overlay content to *IntelliKeys* and then slide in the paper overlay.**

### Ordering Information

|           |                           |          |

| 2CA143853 | Overlay Maker 3           | \$139.95 |
| 2CA141111 | Overlay Maker 3 Five Pack | \$560.00 |

Volume pricing available. Volume purchases cannot be combined with other discount programs or with Access Bundles. Please call for more information.

## Popular software overlays to expand student access

These convenient overlays make favorite programs easier to use— with streamlined choices, fewer or larger keys, and access to favorite features. Students or teachers simply place the overlay on the *IntelliKeys*® USB keyboard and open the application.

Fourteen overlays provide seamless access to:

- AOL® Instant Messenger
- iTunes® and Safari
- Co:Writer® and Write:Outloud®
- WYNN™ and TestTalker™
- Kidspiration® and Inspiration®
- Kurzweil 3000®
- Microsoft® Word and PowerPoint

### Specialized options

- **IntelliKeys USB Keyguards for Standard and Custom Overlays:** Designed to help students who have difficulty selecting the correct keys
- **Overlay Lock:** For times when students are not using a keyguard, this handy device clamps onto the top of the *IntelliKeys USB* and prevents students from pulling out overlays

### Ordering Information

| 2CA142068 | Set of 5 Keyguards                                    | \$200.00 |

Popular Software Overlays for IntelliKeys USB works with Win 98, ME, 2000, XP, and Vista, and Mac OS 10.1 or higher. The associated software must be installed on the computer.

# IntelliSwitch

## Wireless switch for easy software access

The *IntelliSwitch™* is a wireless switch interface engineered by Madentec. Offering greater mobility and easy access to software, *IntelliSwitch* is compatible with both IntelliTools' software and Madentec's *Discover* products.

*IntelliSwitch* automatically recognizes the switch content of any overlay, including overlays for *Classroom Suite*, *Balanced Literacy*, *Number Concepts*, and *MathPad™* titles.

Users can choose from 26 preset switch settings to allow immediate access to many popular switch-accessible titles. When used with *DiscoverPro* and *Discover Envoy* software, *IntelliSwitch* enables individuals with motor impairments to perform all keyboard and mouse functions by simply pressing a switch.

## Additional access tools

### **TrackerPro from Madentec**

*Tracker® Pro* is a computer input device that takes the place of a mouse for people with little or no hand movement. It plugs into a computer's USB port and can be mounted to a monitor, laptop lid, or augmentative communication device using the included mounting adaptations.

### **MagicCursor 2000 from Madentec**

*TrackerPro* lets students point, and *MagicCursor 2000* lets them click. *MagicCursor 2000* is a software replacement for the functions of the mouse buttons, providing access for students who can point but not click.

## A new twist on an old favorite

The *Big Red twist* offers the original *Big Red's* 5-inch activation surface with tactile and auditory feedback, but with a twist. These iconic switch tops can be removed and replaced with the color of choice: red, blue, yellow, or green. It can be individualized by style, tastes, or specific vision needs.

The *Jelly Bean twist* offers the original *Jelly Bean's* 2.5-inch activation surface with tactile and auditory feedback, plus the new switch top color options.

The *Jelly Beamer twist* wireless switch now includes four interchangeable twist tops. It changes from red to green to yellow to blue within seconds.

## An integrated literacy solution

The *Kurzweil 3000*® for Windows® supports the concept of Universal Design for Learning (UDL) as a powerful reading, writing, test-taking, and learning tool that makes curriculum accessible for all students. Backed by more than 30 years of research and development, this software is widely recognized as one of the most comprehensive and integrated solutions for addressing language and literacy learning difficulties.

As an integrated literacy software, *Kurzweil 3000* for Windows can read text aloud to students from digital and print formats, while providing the scaffolded support necessary for individual student success. The software uses a multisensory approach—presenting print or electronic text on the computer screen with added visual and auditory accessibility features.

Students with learning disabilities, students who have the cognitive ability but not the reading ability to learn from grade-level content, and English language learners are among the many student populations that benefit from the use of *Kurzweil 3000*.

*Kurzweil 3000* offers the ability to translate text in multiple languages through the power of Google Translate.™

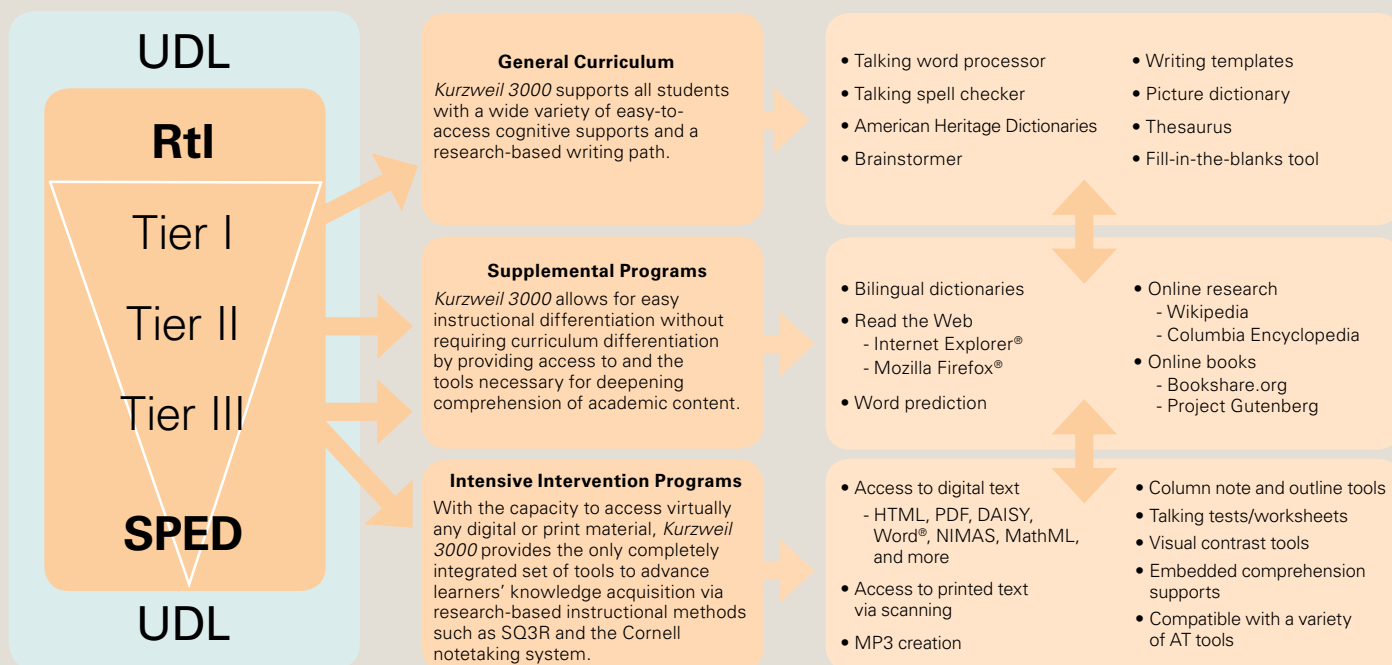

**Kurzweil 3000 has Gone Green!**  
Product is delivered entirely on DVD,  
which includes both software and  
product documentation.

**GOING GREEN**

### Discover the Difference With ...

- ✓ A program anchored upon the principles of **Universal Design for Learning (UDL)**
- ✓ Support for all **Response to Intervention (RtI)** tiers of instruction
- ✓ The ability to **differentiate instruction** without differentiating curriculum
- ✓ Access to all major digital file formats and printed materials
- ✓ A **single user interface** containing all the tools necessary for academic success
- ✓ Support for fluency, vocabulary, comprehension, writing, study skills, and test taking
- ✓ Tools for research-based study skills and writing strategies
- ✓ A platform for whole class, small group, or individual instruction

## Addressing the diverse needs of all students

### Read Bookshare Files With Kurzweil 3000

Bookshare offers tens of thousands of digital books that can be read with *Kurzweil 3000* and *Kurzweil 1000*. Memberships are free for U.S. students with qualified print disabilities and their schools.

sales representative.

## Supports for fluency, comprehension, writing, and vocabulary development

### Reading support

*Kurzweil 3000* provides multisensory access to virtually any text or curriculum, including print, electronic, and web-based documents. This access allows users to engage in the study of cognitive and age-appropriate materials.

As both a UDL and Response to Intervention (RtI) tool, research has shown *Kurzweil 3000* to be highly effective in addressing the development of three critical reading skills:

- **Fluency**—*Kurzweil 3000* reads text aloud at a rate appropriate for each user, providing a model of and support for fluent decoding of text
- **Vocabulary**—By fluently reading text aloud, *Kurzweil 3000* not only increases student reading speed, it provides exposure to grade-appropriate vocabulary and immediate support in the form of dictionary and reference tools
- **Comprehension**—Compensating for weak decoding skills, *Kurzweil 3000* allows the user to focus on the meaning of content, offering highlighters and other tools to enhance understanding of material

*Kurzweil 3000*'s built-in dictionaries make organizing and creating a vocabulary study guide easy.

### NEW!

- Built-in DAISY and NIMAS file support
- Read the Web with Internet Explorer<sup>®</sup> 7 and 8
- Built-in MathPlayer from Design Science, Inc. to read MathML content
- Language translations “on the fly” with Google Translate™
- PDF Bookmarks preservation

### Writing support

*Kurzweil 3000* has numerous research-based writing tools to support the student at every stage of the writing process, from brainstorming to publishing.

Enhanced writing supports include:

- New set of **templates** to assist writers with pre-writing organization in both text-based and graphical formats
- A “**Start Writing**” button and a newly reorganized Write menu to streamline the beginning of the writing process
- A new “**Create**” button that converts the outline to a draft
- Additional **spelling correction support**

Brainstorm Templates help students begin the writing process with graphic organization.

## Reliable access to digital content, tests, and quizzes

### Study skills

Access to content is just the beginning, as *Kurzweil 3000* study skills tools enable educators to teach and reinforce research-based strategies. The *Kurzweil 3000* Study Skills Toolbar provides the following tools:

- Six colors for highlighting
- Footnote, Sticky Note, Text Note, Voice Note, Bubble Note, and Bookmark
- MP3, DAISY 2 (NEW!), and WAV audio file creation
- Circle tools (red and blue)
- Join Column Notes feature allows the user to combine separate column notes into a single file to keep research material organized

From three-column notes to easy creation of outlines, *Kurzweil 3000* supports multiple means of representation to meet individual student needs.

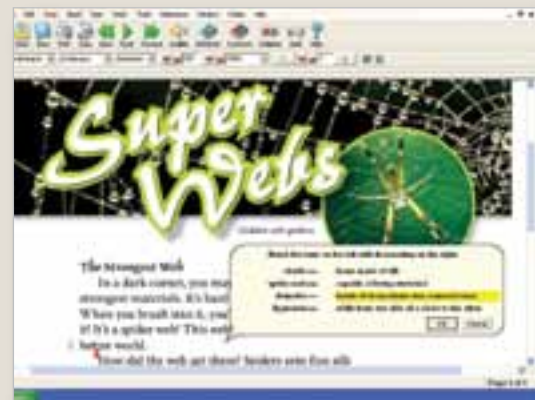

### NEW!

- MP3 Encoder that is available during audio file creation
- Hyperlink feature that lets you add quick links to web pages and documents
- Recognition Range, Interrupt, and Resume for PDF files

### Comprehension and test-taking support

From classroom worksheets and quizzes to state-level assessments, *Kurzweil 3000* provides tools to accommodate a student's individualized education program (IEP), provide a teacher's formative decision-making data, or facilitate a test administrator's security needs.

- **Picture Dictionary** with more than 1,300 graphics and illustrations as well as real-life photos from NASA and NOAA (National Oceanic and Atmospheric Association)
- **Human Voice Pronunciations** from *American Heritage® Dictionary*
- **The Multilanguage Recognition Option** allows users to recognize documents that contain multiple languages
- **Additional Support for Phrases** in pronunciations and optical character recognition (OCR) corrections lists expands *Kurzweil 3000*'s ability to provide greater accuracy in aiding language learners

Teachers can use *Kurzweil 3000*'s Bubble Note tool to create questions that encourage students to actively participate in the reading process.

- **Question and Response Formats** include multiple choice, fill-in-the-blank, true/false, matching, and essay
- **Fill-in-the-Blanks** lets students use *Kurzweil 3000* Text Notes to complete and print many assignments
- **Record Responses** using Voice Notes to provide responses orally for teacher review

## Kurzweil 3000 Web Licensing

*Kurzweil 3000* for Windows Web License powerfully leverages the flexibility of the Internet, as students can log in to *Kurzweil 3000* from any computer where the program is installed, work within their own customized user interface, and complete school work from the comfort of any location.

Cloud-based Universal Library storage service makes the delivery of required academic course content to students a snap. With both public and private share options, files can be confidently shared among users of the program anywhere, anytime.

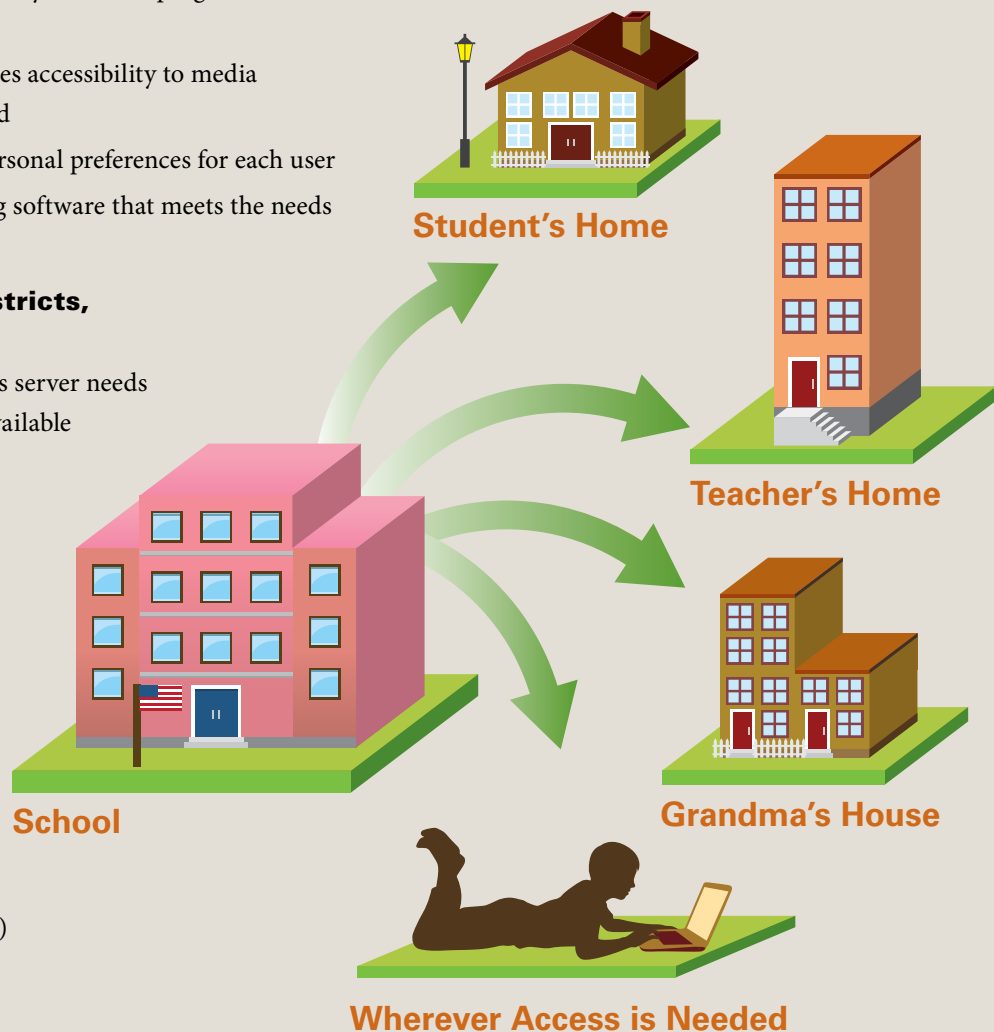

### Benefits for students, teachers, and specialists

- Access to *Kurzweil 3000* from anywhere the program is installed and an Internet connection exists
- Web-based file storage provides accessibility to media wherever, whenever it's needed
- Unique accounts maintain personal preferences for each user
- Universal Design for Learning software that meets the needs of a variety of learners

### Benefits for schools, districts, and IT administrators

- “Cloud-based” storage reduces server needs and makes files universally available
- Supports all learners, from low- to high-performing
- Meets the myriad needs of students from any service location
- Provides ability to address individualized education program (IEP) goals and benchmarks across schools
- Addresses all tiers of Response to Intervention (RtI)

Prizes for the winning student, teacher and school! See page 29.

## Kurzweil 3000 USB for Windows

All the power of *Kurzweil 3000* for Windows is mobile. Teachers and students can now work on any Windows computer—with no software installation required!

### Primary benefits include:

- **USB Flash Drive:** Portable and convenient, containing *Kurzweil 3000* for Windows and 1.8 GB of available storage
- **No Installation:** Access to reading, writing, and study skills tools is available without the need for IT staff involvement to install and maintain software
- **Features:** Includes enhanced e-content access, language learner support, and refined writing tools
  - **Virtual Print:**  
The ability to create new documents without scanning is now available
  - **Work Wherever, Whenever:**  
Ideally suited to the student on the go from classroom to library to home and beyond

## *Kurzweil 3000* for Macintosh

*Kurzweil 3000* is a powerful way for students who struggle with printed text to access curriculum materials so they can keep up with assigned reading, learn critical study skills, and successfully complete writing projects and tests independently. *Kurzweil 3000* for Macintosh includes a simple graphic user interface that appeals to a wide range of students, from elementary school to college.

### Features and benefits

#### Patented dual highlighting

*Kurzweil 3000*'s patented dual highlighting of on-screen text improves students' reading performance by highlighting a sentence, line, or phrase in one color and each word in another color as it is read aloud.

#### Reference lookup tools

One-click access to word support—including recursive dictionaries, synonyms, syllables, and word spelling—helps students with decoding and keeps them actively reading when they reach passages they would otherwise have difficulty comprehending.

#### Flexible writing tools

As students type, they can use the check-spelling-while-typing and speak-while-typing features to quickly recognize and correct spelling mistakes. The audible spell checker and comprehensive word prediction feature further assist students with writing and editing reports, essays, and papers independently.

#### Powerful study skill supports

Students can improve their reading comprehension and retention with tools such as text highlighting, annotations, Bubble Notes, Voice Notes, Bookmarks, and extraction of outlines or word lists.

#### Bubble Notes for instructional support

Teachers can embed Bubble Notes containing questions and instructions to assigned reading to help students stay on task and support reading comprehension.

#### Additional Key Features

- Read web pages using Mozilla Firefox
- Create audio file with iTunes integration
- Unique test-taking capabilities
- Access to electronic files
- Classic literature
- Accurate display of graphics and illustrations with text
- Standalone, Network, and Web License options
- Dictionary and other online resources
- Word-prediction function

# firefly

by Kurzweil Educational Systems®

UDL

## A universally accessible web-based literacy solution

*firefly* provides anytime, anywhere access to digital, text-based content—supplemented by powerful literacy tools that enable individuals with the cognitive ability, but not the literacy skills, to achieve academic success alongside their peers.

### Benefits include:

- ✓ Anytime, anywhere access via the internet
- ✓ Elimination of installation, maintenance, and upgrade hurdles
- ✓ Operates equally well on Windows® and Macintosh® platforms
- ✓ Modern and engaging user interface
- ✓ Constantly improving solution with routine, hands-off updates
- ✓ Education-focused functionality set
- ✓ Accessible to students with physical limitations

As a district AT specialist, **firefly** will provide my teachers and students with a web-based solution that will make delivering accessible content fast and easy.

—Bill Schulte, ESE ITS  
Collier County Schools  
Member firefly Product Advisory Group

**Do you:**

Need anytime, anywhere text support for students who struggle with reading comprehension?

Desire to individualize instruction to support all your students?

Want a program that is web-based and requires no installation?

If you answered YES, then this is the solution for you!

Customize your reading experience

Page through by single page or jump to specific sections of document

Increase/decrease size of display

Translate text

Access to saved digital content online

Look up definitions of words

Simply, easy-to-use navigation enables users to get started right away.

After logging in, simply select saved digital content from your online library.

Profiles allow each user to customize the way in which the document will be read back.

**Benefits for all:**

- ☞ Access the same content with the right support tools for each learner
- ☞ Address high to low incidence needs with the combined use of *firefly* and *Kurzweil 3000*®
- ☞ Individualize interventions easily
- ☞ Deliver access to instructional materials anytime, anywhere
- ☞ Customize level of support

**Individual, multiple users, and building licenses available. Visit [www.fireflybykurzweil.com](http://www.fireflybykurzweil.com) or contact your local sales representative for pricing information.**

*As the assistive technology coordinator for the largest school district in Louisiana, Kurzweil with **firefly** is a godsend! As we are currently a Kurzweil 3000 district, adding **firefly** will eliminate the technology complications of client installations and computer prep upgrades/changes. It will provide immediate access for teachers and students to their desired files and much needed supports.*

# Courage in My Community

## 2011–2012 Essay Contest

Cambium  
LEARNING®  
Technologies

Kurzweil  
EDUCATIONAL SYSTEMS®

IntelliTools®

### An essay contest that allows students to write about:

- **bullying**
- **family issues**
- **emotional issues**
- **everyday challenges they face**

We invite you to participate in our **national essay contest**, “**Courage in My Community**,” sponsored by Cambium Learning Technologies, in partnership with The Max Warburg Courage Curriculum, Inc.

The contest encourages students to explore and write about their own experiences with courage. In addition to gaining valuable reading, reflection, writing, and critical-thinking experience, your students and school will be eligible to win exciting educational prizes by participating.

#### **Who can enter the contest?**

All students in grades 5–8 in the United States are eligible to enter.

#### **Are there limitations on the number of essays a school or student can submit?**

There is no limit on the number a school can submit, but submissions are limited to one essay per student.

#### **How much needs to be written?**

Essays are limited to two or fewer pages. Remember, the essay contest is a “nontraditional” essay contest—**finalists may not be the most well-written of the group, but will clearly demonstrate the child’s understanding of the nature of courage and how it is manifested in his or her life or community.** You will have access to a searchable library of award-winning courage essays written by other middle school students who have participated. These essays will engage your students in real stories, written by real students.

#### **2010–2011 COURAGE CONTEST WINNER**

*Congratulations to William S., a 7th grade student from New York*

#### **The school, the teacher, and the student all win prizes for their efforts**

The winning school will receive a half-day training on The Max Warburg Courage Curriculum, a half-day training on *Kurzweil 3000*®, and a *Kurzweil 3000* Learning Lab Pack (valued at more than \$3,000). The teacher who submits the winning student essay will receive a Kindle 3G. The winning essayist will receive a special ceremony at his or her school, a *Kurzweil 3000* USB Professional Color edition, and an iPod® Touch.

This contest can be implemented as a one-day activity or a semester-long unit or theme. Participation in the contest and all necessary materials are free of charge and do not require specific software or systems. We hope you and your students will take advantage of this opportunity!

Are you ready to get started? To see just how easy it is for your students and school to enter, go to [www.courageinmycommunity.com](http://www.courageinmycommunity.com). Specific questions on the contest can be e-mailed to [essaylibrary@cambiumlearning.com](mailto:essaylibrary@cambiumlearning.com).

**Contest ends February 2012**

# Kurzweil 1000™

or a complimentary  
trial DVD, visit:  
[www.kurzweiledu.com](http://www.kurzweiledu.com)

## Text accessibility for the blind or visually impaired

*Kurzweil 1000™* Version 12 for Windows is award-winning software that makes print or electronic text accessible to people who are blind or visually impaired. It incorporates communication and productivity tools to ease and enhance the reading, writing, and learning experience.

The software reads text aloud in a variety of natural-sounding voices that can be modified to individual preferences. *Kurzweil 1000* Version 12 for Windows delivers quick access to virtually any content—including online books, magazines, dictionaries, and encyclopedias—empowering all readers to pursue their interests.

### **IntelliBraille**

Grades K–8

*IntelliBraille®* is educational software for visually impaired students featuring:

- Compatibility with *Classroom Suite*, *Overlay Maker®4*, and *IntelliKeys® USB* from IntelliTools
- 115 activities for Braille and low-vision students
- 16 lessons on the Literary Braille Code
- 70 inkprint overlays ready to be laminated and Braille labeled
- Tutorials
- Windows/Mac compatibility

See page 31 for pricing.

## Features of Kurzweil 1000 Version 12

### Study tools

Professionals and students find *Kurzweil 1000*'s comprehensive, time-saving study tools extremely useful. They can add bookmarks, text notes, and annotations; skim, summarize, and create outlines for their work; and open documents to the last reading position. It also includes 18 bilingual dictionaries.

### Simple forms recognition and completion

The software provides easy access to most printed forms and presents the fields, labels, boxes, and text areas in the appropriate reading order. Fields can be filled in, edited, saved, and printed. Handwritten signatures can be placed into the form or any *Kurzweil 1000* document after being scanned into a computer.

### Choices for more accurate optical character recognition (OCR)

Two OCR engines, *Nuance Omnipage* and *ABBYY™ FineReader 9*, provide the most accurate OCR available. For the best possible scanning results, *Kurzweil 1000* also has the ability to correct many errors. A noise filter option lets users ignore regions near the edge of a page which were incorrectly identified as text.

### State-of-the-art speech options

Clear, natural-sounding *VoiceText™* voices from NeoSpeech and *ETI-Eloquence™* voices from Nuance deliver the highest-quality text-to-speech (TTS), making reading a pleasure to hear. Users can choose from and adjust many voice options to suit their individual preferences.

### Online information search and retrieval

This version offers quick access to information from a variety of sources, including e-books, magazines, encyclopedias, and the *Merriam-Webster Medical Dictionary*. Based on individualized criteria, *Kurzweil 1000* will search select Internet repositories such as Bookshare.org, NLS Web Braille, AccessWorld, Talking Newspaper Association of the United Kingdom, NFB Publications, and Wikipedia (in multiple languages), and present downloadable choices.

### Read files away from home and burn CD-ROMs

*Kurzweil 1000* can send files to a wide variety of hand-held devices so that important material can be referenced away from home or the office. CD-ROMs of personal files can also be created within *Kurzweil 1000* if a CD burner is available.

### Broad range of file access

Any file type that can be printed via an application installed on the user's computer can be opened with *Kurzweil 1000* (including PDFs), which greatly expands reading choices.

### Other notable features

- Supports low-vision users with magnification and highlighting functions
- Provides easy access to common business applications (e.g., calculator, calendar, photocopier, and fax)
- Scans within Microsoft Word

### Kurzweil 1000 Ordering Information

## Innovative programs to teach basic computational skills

### **Counting to Computation: Number Concepts 1 With Oshi the Otter** Grades K-2

Students join Oshi and his seashore friends as they practice counting sea creatures at the beach, do beginning addition and subtraction at the tide pool, and help Mary the moray eel decide which set of creatures is greater in number than the other. Oshi can ask questions, or students can make up their own problems.

### **Number Concepts 2 With Penn and Gwen** Grades 3-5

Students travel to the land of ice and snow, where penguin friends Penn and Gwen help them master skip counting, place value, and factoring. Students match wits against Flame the Fiery Menace. Realistic simulations help reinforce abstract concepts.

### **MathPad** Grades K-2

*MathPad™* is an electronic worksheet that allows students to do addition, subtraction, multiplication, and division directly on the computer. Learners do their own calculations, just as they would on a worksheet. *MathPad* is ideal for students who need help organizing or navigating through math problems or who have difficulty doing math worksheets with pencil and paper. The program correlates to National Council of Teachers of Mathematics (NCTM) standards and selected state content standards.

### **MathPad Plus: Fractions and Decimals** Grades 3-8

*MathPad Plus: Fractions and Decimals* offers the same functionality as *MathPad* with exciting new features that allow students to do addition, subtraction, multiplication, and division using fractions and decimals. *MathPad Plus* is especially helpful for adapting problems from worksheets or textbooks so that students with learning disabilities can work on the same problems as their classmates.

## Number Concepts and MathPad Ordering Information

|           |                                  |          |
|-----------|----------------------------------|----------|
| 2CA141532 | MathPad Windows                  | \$79.95  |
| 2CA141479 | MathPad Macintosh                | \$79.95  |
| 2CA141567 | Number Concepts 1                | \$79.95  |
| 2CA141663 | Number Concepts 2                | \$79.95  |
| 2CA145496 | MathPad Plus (Mac/Win)           | \$99.95  |
| 2CA141946 | MathPad Mac Five Pack            | \$320.00 |
| 2CA140636 | MathPad Win Five Pack            | \$320.00 |
| 2CA140644 | Number Concepts 1 Five Pack      | \$320.00 |
| 2CA140652 | Number Concepts 2 Five Pack      | \$320.00 |
| 2CA141962 | MathPad Plus (Mac/Win) Five Pack | \$400.00 |

These programs are not Mac OS X compatible.

Number Concepts 1 and 2: Win 95, 98, ME 32MB RAM; Win 2000 64MB RAM; Win XP 128MB RAM; Mac OS 7.5-9.1; 17MB available RAM; 7.5MB hard drive space (NC 1) or 15MB hard drive space (NC 2); run from CD drive; 256 colors 640x480. Note: NC 1 will not run on computers with 1 GB RAM.

MathPad: Win 95, 98, ME 32MB RAM; Win 2000, XP 64MB RAM; Vista (1 GB RAM); Mac OS 7.5-9.1; 2MB available RAM; 2MB hard drive space; 256 colors 640x480. For Macintosh, if switch interface is not IntelliKeys, ClickIt! is required.

MathPad Plus: Win 95, 98, ME 32MB RAM; Win 2000, XP 64MB RAM; Vista (1 GB RAM); Mac OS 7.5-9.1; 4MB available RAM; 10MB hard drive space. 256 colors 800x600.

# INTELLITOOLS® Balanced Literacy™

For more information  
or a complimentary  
trial CD-ROM, visit:  
[www.cambiumtech.com](http://www.cambiumtech.com)

## Theme-based instruction to support the language arts curriculum

*Balanced Literacy™* is a year-long interactive program that supports and supplements any language arts curriculum. Nine units are built around animal themes with engaging graphics and animated songs that introduce each word family. Anchor Books introduce patterned language, sight vocabulary, and word families. In addition, more than 200 computer-based phonics activities help students develop decoding skills.

### A balanced approach

Designed by experts in literacy and special education, *Balanced Literacy* addresses the essential elements of reading instruction and provides a sequential approach to early literacy that integrates:

- Guided reading
- Supported writing
- Word study
- Phonics activities
- Multisensory reinforcement
- Extensive practice

### Includes writing activities

The *Primary Writing 3* CD-ROM, from the IntelliTools *ReadyMade Curriculum Activities* line, provides guided writing activities that correspond to *Balanced Literacy's* nine topic areas. Structured phonics instruction, encoding (spelling) activities, and story-writing games emphasize grammar and usage.

### Support for success

*Balanced Literacy* provides:

- Theme-based Anchor Books
- Repetition and practice
- Auditory support
- Immediate assessment
- Student portfolios
- Correlations to standards
- Special needs support
- Teacher support

*Balanced Literacy* was developed under a grant from the National Institute of Child Health and Human Development, National Institutes of Health. It was field-tested with students across the country, with excellent results. A full research report can be found at [www.intellitools.com](http://www.intellitools.com).

### Balanced Literacy Ordering Information

|           |  |            |
|-----------|--|------------|
| 2CA145058 | Balanced Literacy: includes Teacher's Guide, ReadyMade Primary Writing 3, 9 Anchor Books, and 3 IntelliKeys overlays | \$299.00   |
| 2CA141031 | Balanced Literacy Five Pack  | \$1,196.00 |
| 2CA145040 | Set of 9 additional Anchor Books   | \$30.00    |
| 2CA145082 | Set of 23 additional IntelliKeys overlays  | \$30.00    |

Pentium (333MHz); Win 98, and ME 64MB RAM; Win 2000, Win XP 128MB RAM; Vista (1GB RAM); 20MB (runs from CD-ROM) plus QuickTime Player hard drive space; 16-bit high colors 640x480; sound

Blaster 16 compatible. iMac/G3 (333MHz); Mac OS 9.2.x, 10.1.5 or higher; 32 MB available RAM; 20MB (runs from CD) plus QuickTime Player hard drive space; 1000 colors 640x480. Minimum 8x CD ROM.

# INTELLITOOLS® ReadyMade® STORY KITS

For more information visit:  
[www.cambiumtech.com](http://www.cambiumtech.com)

## Interactive and easy-to-use multimedia kits

*ReadyMade® Story Kits* are thematic units based on stories or songs, each featuring up to 35 activities utilizing patterned language, familiar refrains, and engaging interactive animations. Features include:

- Computer adventures that begin with a printed storybook
- Answer checking so that teachers can assess progress
- An extensive PDF resource document full of printable games and away-from-the-computer activities

### Colorful Caterpillar

Students are introduced to the concepts of colors and numbers while following the metamorphic process of the caterpillar. The 35 supplemental activities teach quantity recognition, simple addition and subtraction, symmetry and pattern, phonics, sentence building, and comprehension.

### Five Cuddly Teddies

Students count backward as each of the five cuddly teddies goes its way until there are none. Within the engaging bear theme, students practice 35 supplemental activities and explore early math concepts, operations, position concepts, classification, reading, phonics, comprehension, and writing.

### Animal Habitats

Early learners travel with the Curious Polar Bear to five habitats—jungle, grasslands, mountains, arctic, and desert. The 35 thematic activities provide practice in comprehension, writing, phonics, classification, number concepts, math operations, patterns, and more.

**NOTE:** A licensed *Classroom Suite* (Version 3.2 or higher) must be installed to run the *ReadyMade Story Kits*.

### ReadyMade Story Kits Ordering Information

|           |                                |          |
|-----------|--------------------------------|----------|
| 2CA144004 | Animal Habitats                | \$49.95  |
| 2CA141161 | Animal Habitats Five Pack      | \$200.00 |
| 2CA144012 | Colorful Caterpillar           | \$49.95  |
| 2CA141170 | Colorful Caterpillar Five Pack | \$200.00 |
| 2CA144047 | Five Cuddly Teddies            | \$49.95  |
| 2CA141225 | Five Cuddly Teddies Five Pack  | \$200.00 |

Each Story Kit requires approximately 150 MB of hard drive space. A licensed Classroom Suite (Version 3.2 or higher) must be installed to run the ReadyMade Story Kits.

# Stages

For more information visit:  
[www.intellitools.com](http://www.intellitools.com)

## Activities for seven stages of development

*Stages* offers 300 engaging, easy-to-use activities at seven stages of cognitive and language development—from cause and effect to written expression.

Automatic data-gathering capabilities and observation forms allow educators to:

- Assess learners’ progress toward individualized education program (IEP) goals and state standards
- Identify appropriate curriculum software to build skills
- Generate primary evidence for alternate assessment portfolios

### Stages Report Wizard

*Stages* Report Wizard works with your saved *Stages* reports to show many aspects of a learner’s achievement toward curriculum standards and IEP goals. It automatically generates graphs, analyzes reports for content mastery, and compiles the results into a final document for printing, saving, or distributing as a PDF file.

### Stages Math: Number Sense

Number sense is the basic building block for all math skills. Areas covered include:

- Words for numbers
- Count
- Compare
- Sequence
- Math facts
- Money
- Number line
- Fractions

### Aligned to Classroom Suite 4 templates

*Classroom Suite* templates are ideally suited to support these areas. Activities can be easily customized to support students and document their progress in all seven *Stages*. The software also provides robust accessibility options for switch and *IntelliKeys* users. The *Classroom Suite* alignment grid is available at [www.cambiumtech.com/stages](http://www.cambiumtech.com/stages)

### Stages Software Solutions for Special Needs

by Madalaine Pugliese, M.S., Ed.S.

*Stages Software Solutions for Special Needs*, now in its Second Edition, documents the *Stages* framework with powerful insights and practical examples. This book helps educators find the best ways to discover a learner’s abilities.

### Stages Ordering Information

|-----------|---|------------|
| 2CA179768 | Stages Software Solutions for Special Needs Book Single Copy            | \$39.00    |
| 2CA179864 | Stages Report Wizard  | \$125.00   |
| 2CA179872 | Stages Math: Number Sense   | \$199.00   |
| 2CA179848 | Stages: All-in-One Kit (one binder: all seven Stages and Report Wizard) | \$795.00   |
| 2CA184920 | Stages: Classroom Suite Access Bundle                                   | \$1,395.00 |

**Stages Report Wizard is included with Stages: All-in-One Kit.**  
 Volume discounts apply. Call 800-547-6747. For system requirements, please visit [www.cambiumtech.com/stages](http://www.cambiumtech.com/stages).

# Implementation Services

For more information, visit [www.cambiumtech.com](http://www.cambiumtech.com), e-mail [training@cambiumtech.com](mailto:training@cambiumtech.com), or call 800-547-6747, ext. 626

## Professional development is your key to success

Cambium Learning Technologies' innovative tools can enhance instruction and help all students achieve—but only when used effectively. We empower educators by providing the ongoing training and support needed to learn how to integrate CLT products into the classroom for individual, small group, and whole class instruction.

Our Implementation Services team consists of highly qualified educators with extensive experience in educational technology integration, curriculum, assistive technology, literacy, and universal design. Expert professional development is designed to meet your needs and your budget. Options include:

- Long-term implementation partnerships—training, lessons, and consultation support
- Private on-site workshops
- Public regional workshops
- Live online workshops
- Self-study online workshops
- High-stakes test preparation services
- Curriculum alignment services

*This has been the most cost-effective and useful use of our training budget ever. I wish we had done this years ago.*

—Dave Lambert, Educator  
St. George, Utah

*The workshop gave me the skills to start using the templates right away. I will be able to do everything that I learned.*

—Janet Hobbs, Educator  
Albuquerque, New Mexico

### Plan for successful technology integration

With appropriate professional development and planning, our Implementation Services team can help:

- Ensure that all students achieve
- Integrate technology
- Differentiate instruction
- Supplement and enhance existing curriculum
- Support the UDL classroom
- Extend teachers' reach
- Meet educational goals
- Build internal capacity
- Enhance instructional strategies in:
  - Reading
  - Writing
  - Math
  - Study skills
  - Test taking

### Workshop themes

#### **Kurzweil 3000**

- Foundations
- Curriculum integration
- Advanced topics (customizable)

#### **Classroom Suite**

- Foundations
- *IntelliBraille*<sup>®</sup>
- Early childhood, early learning, and easy switch
- IntelliTools<sup>®</sup> extreme (advanced)
- Advanced topics (customizable)

### **IntelliKeys and Overlay Maker**

- Introduction to *Overlay Maker*<sup>®</sup> and access tools

#### **Stages**

- Foundations
- Curriculum integration
- Implementation strategies
- Certified evaluator

#### **Train the Trainer**

... and many more; contact us today!

### Training Options

|  |   |
|--|---|
| Private 1-Hour Online Workshop (private, up to 5 participants) | \$150.00                                |
| Online Self-Study Workshop (3 months)                          | \$175.00                                |
| Regional Workshop (public, 20 participants, 6 hours)           | \$225.00/person                         |
| Online Workshop (private, 20 participants, 3 hours)            | \$500.00                                |
| On-Site Workshop (20 participants, 6 hours)                    | \$2,500.00/day                          |
| Basic Implementation Partnership (multiday)                    | \$15,000.00                             |
| Train the Trainer (10 participants, 3 days)                    | \$15,000.00                             |
| Intermediate Implementation Partnership (multiday)             | \$27,500.00                             |
| Premier Implementation Partnership (multiday)                  | \$52,500.00                             |
| High-Stakes Test Preparation Services                          | \$ Negotiable based on scope of project |

### Money-Back Guarantee

Use our resources in your school for 30 days. If for any reason during that time you feel they aren't well worth the price paid, return them in salable condition with a note telling us why. You'll receive a prompt, complete credit or refund of the purchase price. Please call 800-547-6747 for an authorization number and procedures before returning. Choose the Customer Service option.

---

### PLACING YOUR ORDER

#### Purchase Orders

We accept signed Purchase Orders by fax, e-mail, and mail. We find that e-mail is the most reliable transmission method and encourage you to send your Purchase Order to [customerservice@cambiumlearning.com](mailto:customerservice@cambiumlearning.com). If you fax or e-mail your order, please do not mail us a copy; otherwise, your order could be duplicated. The Purchase Order must include "Bill To" and "Ship To" addresses and a Purchase Order number. Discrepancies in pricing, taxes, or shipping costs may delay order processing—please check your order carefully. Materials are shipped ground service unless faster service is specified on your order. (See "Rush Delivery" for additional information.) We cannot accept Purchase Orders by phone. Requisitions are not an acceptable alternative to signed Purchase Orders.

#### Website Orders

Customers may place orders via the Cambium Learning Technology's website, [www.cambiumtech.com](http://www.cambiumtech.com), 24 hours a day. Please note that if you place an online order using a Purchase Order, you will still need to fax a copy of the Purchase Order and a Certificate of Tax Exemption (if applicable) to 888-819-7767.

#### Credit Card Orders

We accept VISA, MasterCard, American Express, and Discover (prepaid) orders by fax or mail (with an Order Form), by phone, or online (See "Website Orders" for details). When calling, please have your credit card and product codes ready.

#### Tax-Exempt Status

A Certificate of Tax Exemption must be on file or included with your order. Please mail or fax this with your order; otherwise, order processing may be delayed, or taxes may be applied.

---

### SHIPPING

If there is a specific date by which you need your materials, please let us know at the time you place your order.

#### Normal Delivery

Our normal order processing time is quite fast; most orders are shipped between 3 and 4 business days from order receipt (October–May). During the summer, orders ship 5–7 business days from order receipt. To receive status updates on your shipment, please be sure to provide your e-mail address when you place your order.

### Rush Delivery

Rush orders must be received in Customer Service by 11:00 a.m. Mountain Time in order to be shipped that day. Otherwise, they will be shipped the following business day. When placing the order, please specify: Overnight, Second Day, or Third Day shipping. Please call Customer Service in order to calculate exact charges for your rush order.

---

### Prices

All prices are subject to change without notice. Call 800-547-6747 to verify prices and/or request an updated catalog.

---

### International Orders

Check [www.cambiumtech.com](http://www.cambiumtech.com) for a dealer in your area.

---

### Return Policy

If for any reason you wish to return the products you purchased, you must return them within 30 days of receipt for a full credit or refund. To ensure proper credit or refund, you must call 800-547-6747 for an authorization number and procedures before returning an item. Products returned after 30 days will be subject to a 15% restocking fee. Products cannot be returned after 90 days from the date of shipment. Kits, Classroom Sets, etc., must be returned in their entirety. We cannot switch components or issue partial credits. If you find an error on your packing slip, or if your order was filled incorrectly, please notify Customer Service within 10 business days of receipt. We will do our best to rectify any discrepancies promptly. Before returning items, please contact Customer Service.

---

### Return Shipping

You are responsible for the cost of return shipping. Returned goods must be shipped via UPS or FedEx. All returned materials must be in salable condition. Please package returns carefully so that they are not damaged in transit, and limit the weight of your boxes to 50 pounds. If we receive damaged goods and you would like them returned to you, you must pay the return shipping costs. Shipping address for returns:

#### Cambium Learning Technologies

4185 Salazar Way  
Frederick, CO 80504

---

### Business Hours

7:00 a.m.–5:00 p.m. Mountain Time, Monday–Friday

---

### Customer Service

Please contact us at 800-547-6747 or via e-mail at [customerservice@cambiumlearning.com](mailto:customerservice@cambiumlearning.com)
