

Release Notes

Kurzweil 3000® for Windows Version 12.19
August 2, 2012

WHAT'S NEW?

12.19 CHANGES AND RESOLVED ISSUES

In All Editions:

- Bug fixes only.

GENERAL INSTALLATION NOTES

- Version 12 program install and program-related files are on DVD, so you will need a DVD drive. A downloadable version can also be found on www.kurzweiledu.com/k3win.
- Before installing Kurzweil 3000 Version 12 read the Installation Instructions in the Kurzweil 3000 for Windows Standalone or Network Installation and Administration Guide.
- Version 12 no longer includes filters and converters from Stellent. If you want to keep the converters, do not uninstall the earlier version of Kurzweil 3000; instead install Version 12 over the previous version.
- When installing or uninstalling on computers with Windows XP, Windows Vista, or Windows 7 you must be logged on as administrator or as a user with administrator privileges.
- The starting point for the Version 12 install is the Setup file in the directory window that opens when the product DVD is inserted. Double-click that file and follow the prompts.
- Whenever installing a combination of Kurzweil 3000 and Kurzweil 1000 (reading system for the blind), always install the older version first, based on the date on the DVD.
- The Trial version can no longer be activated to the full product. For the full product, you must install from the separate product DVD and register the product.
- All documentation is available in PDF format in the Documentation folder on the product DVD, as well as at <http://kurzweiledu.com> under the Download Center.

CONTACTING KURZWEIL EDUCATIONAL SYSTEMS®
